ZEPPELIN AIRSHIP FREIGHTERS WILL COME TO AMERICA

Captain Koenig, of the Deutschland, Says a Bigger Surprise is Still in Store.

BERNSTORFF PAYS A VISIT

Inspects Submarine at Baltimore and Personally Congratulates the Captain.

Baltimore, July 13.—Count von Bernstorff, the German ambassador, spent an hour aboard the German submarine merchantman Deutschland today. He inspected the vessel from stem to stern, had the intricate machinery and instruments aboard explained to him, and personally congratulated Captain Koenig upon bringing his vessel safely through waters infested with hostile war craft.

Two attachees of the German embassy, the German and Austrian consuls in Baltimore and Mayor Preston accompanied the ambassador on his visit to the submarine.

The ambassador informed Captain Koenig that he would send to him before the Deutschland starts on her return voyage several packets of official papers which he desires to be delivered intact to the Berlin foreign office.

Ambassador Enthusiastic.

The ambassador was enthusiastic as he emerged fro mthe conning tower of the Deutschland.

"It is a wonderful boat and, with as courageous a crew as ever sailed the sea, has made a wonderful voyage," said he. "I climbed up and down every hatchway, looked into every compartment, and had my first experience with a periscope.

"Captain Koenig did not tell me just when he expects to leave for Germany but I presume it will be soon after he has his return cargo aboard. He is in complete charge of the vessel and has his orders from Berlin. His craft is a private one, just as much so as any North German Lloyd liner. My visit here was entirely unofficial."

The ambassador arrived this afternoon from New York. Prior to visiting the submarine he attended a luncheon at the Germania club given in honor of Captain Koenig. Tonight he he was present at a dinner given by Mayor Preston to the commander of the submarine. He made reservations on a late train for New York.

Zeppelins Are Coming.

City officials who visited the submarine today quoted Captain Koenig as saying that Zeppelin airship freighters are being built in Germany for trans-Atlantic service.

"To you," Captain Koenig was quoted as saying, "the trip of the Deutschland is a great achievement. You musn't be too enthusiastic over it, for a bigger surprise is coming. A great Zeppelin airship or may be I should say airships, are being built in Germany. In the not distant future one or more of them will sail through the air to the United States. Just as sure as the Deutschland came to America, so will the Zeppelins come."

The Deutschland, having discharged her cargo, is undergoing some minor repairs, which are being made by members of the crew. A barge has been moored alongside the vessel and on it a miniature machine shop has been set up. There mechanics from the Deutschland worked all day. Their task seemed to have been completed tonight and the work of loading the return cargo, consisting principally of crude rubber and nickel, should begin tomorrow or next day.

NUMBER OF ALLIED WARSHIPS OFF THE VIRGINIA CAPES.

Norfolk, Va., July 13.—Captains of incoming liners and other craft, arriving in harbor tonight, report that at least three, if not four, Allied warships are now guarding the Virginia capes. They are standing off the coast about 20 miles and are guarding both the northern and southern channel. Two are English cruisers and one is French. The fourth, standing too far south to be positively identified, is believed to be a Britisher.

FOREST FIRE PROTECTION CONSIDERED BY FORESTERS.

Southern Forestry Congress Closes Its Annual Sessions.

Asheville, N. C., July 13.—Closing its general sessions here tonight, the Southern Forestry Congress devoted the day to consideration of the problems of forest fire protection and Southern forestry practice. A resolution was adopted providing for the permanency of the congress, holding annual meetings at points to be later named.

A suggestion that a tablet be placed in Pisgah National Park as a memorial to the late George W. Vanderbilt was heartily endorsed. A committee with Governor Locke Craig as chairman, was appointed to find ways and means for the tablet which will be placed at the entrance to Pisgah Park.

Today's speakers included J. D. Peters, of the United States Forestry Service; H. H. Chapman, of the Yale school of forestry; J. A. Viquesney, forest, game and fish warden of West Virginia; R. S. Maddox, forester of the Tennessee Geological Survey; F. W. Besley, state forester of Maryland; M. V. Richards, labor and industrial agent of the Southern Railway; J. E. Barton, state forester of Kentucky, and George Lathrop Pack, of Cleveland, president of the American Forestry Association.

COASTS SEARCHED FOR MAN-EATERS

Armed Shark Hunters in Motor Boats Patrol Waters of New York and New Jersey.

SEVERAL MONSTERS SEEN

Terror Has Seized Multitudes Who Have Bathed at the Various Beaches. Wire Nets Strung Around Bathing Areas.

New York, July 13.—Armed shark hunters in motor boats patrolled the New York and New Jersey coasts today while others lined the beaches in a concerted effort to exterminate the man-eaters which have moved north from their customary haunts, apparently in large numbers. The village authorities at Matawan, N. J., offered a reward of $100 for every shark brought in dead or alive.

Belief that a single shark was responsible for the killing of four swimmers in New Jersey waters within the past two weeks, two of them yesterday at Matawan Creek, a shallow inlet 16 miles from the open sea, has been dispelled by persons who actually have seen a half dozen or more of of monsters.

Theory of Their Presence.

One theory is that sharks which formerly fed on refuse thrown overboard from the many ocean steamships that plied before the war began, now have become ravenous. Even those not ordinarily classed as man-eaters, it is said, probably have been driven by starvation to lurk in the waters of the Atlantic coast, warm at this season,and attack human beings.

Three of the huge fishes were seen today in Matawan creek and now are believed to be bottled up there. Nets have been stretched under a bridge about a mile and a half from the mouth of the inlet to prevent egress into Raritan bay. A British sloop arriving from Bermuda was reported tonight to have killed a score of sharks during the voyage, one of them off the New Jersey coast.

Terror Seizes Bathers.

Terror has seized the multitudes who have bathed at beaches along the New York and New Jersey coasts, and comparatively few persons now venture into the water. At Asbury Park and other New Jersey resorts wire nets have been strung around the bathing areas.

Dr. George G. Reynolds, of Matawan, who attended Stanly Fisher who was so seriously mangled in a battle with a shark yesterday that he died a few hours later, performed an autopsy on Fisher's body today. He declared that the flesh torn by the man-eater's teeth was impregnated with a peculiar poisonous liquid which seemed to have a deadening effect on the nerves and muscles. This probably explained, he said, why Fisher apparently had little sensation of pain when the shark took off his leg.

Boy Probably Devoured.

Little hope is entertained for the recovery of the body of 12-year-old Ltester Stillwell, the other victim of the Matawan Creek tragedy. It is believed that he was devoured by the ship, as persistent dragging of the inlet and dynamiting of the waters have failed to bring up the body.

Conflicting reports were received here during the day from various

DISLOYAL FOREIGNERS ARE AGAIN DENOUNCED

President Delivers Address on Education of New Citizens.

Says Native Americans Cannot Teach Good Citizenship Unless They Themselves Are Imbued With True American Spirit.

Washington, July 13.—President Wilson, in an address here today denounced as disloyal those foreign born citizens who "draw apart in spirit and organization to seek some special object of their own" and added a warning to native Americans that they cannot teach good citizenship unless they themselves are imbued with the principles of Americanism.

The President spoke before a meeting of those interested in the education of aliens being held under the auspices of the Naturalization Bureau. He dwelt at length on the problem of instructing new citizens, but declared that after all the prime necessity in such instruction was a realization of the significance of American traditions on the part of instructors.

"Unless we are true Americans," he said, "we cannot infect them with the spirit of Americanism. Unless we ourselves illustrate the ideas of justice and freedom, we can teach nothing to those who come to us."

No foreign nation was mentioned specifically by the President but some of his hearers saw a possible echo of the country's recent foreign complications in his delineation of the ideals which he said must be followed if true Americanism were to be accepted. He declared the process of Americanization must be such a process as will instill a steadfastness to principle and

VICTORY FLOWING TOWARDS ALLIES

Lloyd George Says Change in Fortunes of the Entente Due to Improved Equipment.

CONFERENCE ON MUNITIONS

Declares Initiative East and West Has Been Wrenched from the Germans, Who, He Trusts, Will Never Regain It.

London, July 13.—David Lloyd-George, minister of war, who presided today at an Entente Allied conference on equipment, declared that the combined offensive of the Allies had Wrenched the initiative from the Germans, never, he trusts, to return.

"We have crossed the watershed," he said, "and now victory is beginning to flow in our direction. This change is due to the improvement in our equipment."

The conference was held at the war office and was participated in by Albert Thomas, French minister of munitions; General Beliaeff, assistant minister of war of Russia; General A. Dall 'Olio, member of the Italian ministry of war, and the new British minister of munitions, Edward S. Montague.

Fortunes Have Changed.

"Since our last munitions conference," said Mr. Lloyd-George, "there has been a considerable change in the fortunes of the Allies. On that date the great Champaigne offensive in the west had just failed to attain its objective and the French and British armies had sustained heavy losses without the achievement of any particular success. In the east the enemy had pressed the gallant armies of Russia back some hundred miles and the Balkans had just been overrun by the Central Powers.

"The overwhelming victories won by the valiant soldiers of Russia have struck terror into the hearts of our foes, and these, coupled with the immortal defense of Verdun by ou r indomitable French comrades, and the brave resistance of the Italians against overwhelming odds in the southern Alps have changed the whole complexion of the landscape.

Initiative Wrenched from Enemy.

"Now the combined offensive in the east and west has wrenched the initiative out of the hands of the enemy—never, I trust, to return to his grasp. We have crossed the watershed and now victory is beginning to flow in our direction.

"Why have our prospects improved? The answer is, the equipment of our armies has improved enormously and is continuing to improve. * * *

"The British navy until recently has absorbed more than half the metal workers of this country. The task of building new ships and repairing the old ones for the gigantic navy and fitting and equipping them, occupies the energies of a million men. Most of our new factories now are complete, most of the machinery has been set up. Hundreds of thousands of men and women, hitherto unaccustomed to metal and chemical work, have been trained for munitions making."

JAMES C. BURGER IS ELECTED OUTER GUARD

Imperial Council of Shriners Closes Its Sessions.

Minneapolis Selected as the Meeting Place in June, Next Year—Keen Competition for Office of Outer Guard.

Buffalo, N. Y., July 13.—James C. Burger, of Denver, was elected to the office of Outer Guard, the first stepping stone to the highest office in the order, at the closing session of the 42nd annual meeting of the Imperial Council, Nobles of the Mystic Shrine here today. There was keen competition for the honor, David W. Crossland, of Montgomery, Ala., leading up to the fourth ballot in a field of five candidates. Minneapolis was selected as the meeting place for June 26, 27 and 28, 1917.

All the imperial officers advanced one station, according to custom, except the secretary and the treasurer, respectively, William S. Brown, of Pittsburg, and Benjamin W. Rowell, of Boston, who were re-elected. Henry N. Niedringhaus, of St. Louis, thus became Imperial Potentate.

Dispensations were granted to Kazig Temple, of Roanoke, Va., and Soudan Temple, of New Bern, N. C. The only temple to get a charter was Alzafar, of San Antonia, Texas. An application for a charter for the Panama Canal Zone was refused.

Attention was called to the fact that a few women were allowed to parade with the Shriners in Buffalo, and it was decided to enforce more rigidly the rule excluding all except Nobles.

Rain prevented the competitive drills of Arab Patrols this afternoon.

San Juan Del Sur, Nicaragua, July 13.—Dr. Adam Cardenas, head of the conservative party and president of Nicaragua from 1882 to 1536, died here today.

SHIPPING TIED UP AS HEAVY STORM BLOWS UP COAST

Hundreds of Persons Hurry to Charleston From Nearby Resorts Along Seashore.

SMALL CRAFT BREAK LOOSE

Resorters at Tybee Island Become Alarmed When Winds Begin to Drive Sea Shoreward.

Charleston, S. C., July 13.—Shipping was tied up in the harbor here tonight by a hurricane which blew at the rate of 64 miles an hour and swept great waves over portions of the sea wall. Hundreds of persons hurried here from nearby coast resorts. No damage was reported, however, and it was said there was no loss of life.

Regular communication with Sullivan's Island, across the bay, was interrupted by the high waves, and 450 persons at that resort were brought to Charleston in the buoy tender Cypress of the lighthouse department. Small boats and the regular ferry were unable to combat the waves.

Along the water front every precaution was taken by shipping interests to preserve their property. Several barges and smaller vessels were reported to have broken loose from their moorings, but no one was believed to be aboard them.

The steamer Lenape, a passenger liner due to leave here late today for Jacksonville, was forced to remain in harbor as was the tug Vigilant, from which two barges were said to have broken loose. It was not thought here that severe damage would be done except possibly to flimsy buildings near the water front and possibly to small vessels along the coast. Warnings have been flashed to them.

MANY COTTAGERS AT TYBEE ISLAND BECOME ALARMED.

Savannah, Ga., July 13.—With hurricane warnings displayed by the local weather bureau and a stiff northeast gale blowing off the coast, all shipping in the harbor early tonight, took precautions against damage from the heavy blow which is expected here before morning.

At Tybee Island, a summer resort, 18 miles from here, where there are hundreds of summer cottages, many people became alarmed and most of them came to the city.

Off Tybee bar the gale this afternoon drove the pilot boat Eclipse ashore near the quarantine station. The boat, badly damaged, later was towed into the harbor.

Weather bureau officials tonight fired rockets from the roof of one of the tallest buildings to warn ships off the coast. They also sent requests to Beaufort and Georgetown, S. C., that rockets be sent up at those places at brief intervals.

Late trains from Tybee tonight came over tracks which were covered with water nearly a foot deep for a stretch of several miles.

MARTIAL LAW PROCLAIMED THROUGHOUT SPAIN LAST NIGHT

Action Taken Because of Railroad Strike Effective July 16.

Madrid, via Paris, July 13.—In view of the railroad strike the government has suspended the constitutional guarantees and martial law has been proclaimed throughout Spain tonight. King Alfonso has arrived at Madrid from La-Granja. A general strike is announced for July 16.

The city and province of Madrid were declared by the government in a state of siege on Thursday. This step was taken on account of the strike of railroad employes which has disorganized the transportation system of the country and has resulted in serious disturbances.

WARNING IS SENT OUT TO FISHERMEN AND BATHERS.

Washington, July 13.—Indications that there may be large schools of sharks in unaccustomed waters along the Atlantic coast brought a warning from the Bureau of Fisheries today cautioning fishermen and bathers to use the greatest care in boating or swimming.

Records of the bureau show that until this year there have been no sharks in the waters where during the last few weeks they have claimed several victims. Bureau officials believe a lack of food may have brought them to the northern Atlantic coast in great numbers.

THE DAY IN CONGRESS

SENATE

Met at 10 A. M.

Began debate on $315,000,000 naval bill.

Commerce committee Democrats agreed to provision in shipping bill permitting government ships to enter coastwise trade.

Adjourned at 6:30 P. M. to 10 A. M. Friday.

HOUSE

Met at noon.

Considered general dam bill.

Omnibus public building bill, carrying about $32,000,000, completed in committee.

Ways and Means Committee favorably reported bill permitting exportation of gin in bond in other than original packages.

Deferred vote on Rucker campaaign publicity bill until Friday.

Adjourned at 3:15 P. M. until 11 A. M. Friday.

SENATE TAKES UP THE NAVAL BILL

Is Largest Naval Appropriation Measure by Many Millions in Nation's History.

WILL RUSH CONSIDERATION

There Will Be No Partisan Opposition in Senate, Although a Long Fight is Expected in Conference With House.

Washington, July 13.—The Senate today began discussion of the $315,000,000 naval bill, the largest naval appropriation measure by many millions in the nation's history, and bearing increases of nearly $50,000,000 over its total as it passed the House. Senate leaders emphasized their intention of expediting its consideration and little opposition arose to the committee amendments presented.

An indication that the Senate is in sympathy with the liberal increases written into the bill by the Senate naval committee, was seen in the approval without opposition of a section increasing the enlisted, strength of the navy from the present 54,000 to 68,700 men and 6,000 apprentice seamen. The House bill provided for an increase to only 61,000 men.

No Partisan Opposition.

When the personnel section was reached Senator Norris asked for an explanation of its purpose. Senator Swanson, in charge of the measure, replied that the section as drafted followed the recommendations of the Navy General Board and would give only a sufficient personnel to man the best battleships and cruisers now in commission and a 50 per cent. complement for vessels in reserve. Senator Lodge, ranking Republican member of the Naval committee, also declared the increase imperative.

That there would be no partisan opposition to the bill was apparent from the beginning of the debate.

In opening the general debate on the bill, Senator Swanson said that the United States should "become and remain without question the world's second naval power."

Strong Navy Imperative.

"We had as well realize that all of our rights, the preservation of our institutions, the possession of our wealth, the continuation of the Monroe Doctrine and the ownership of the Panama Canal are dependent upon our strong arm, manifested and exercised through our navy," he continued.

"For this great nation, rich in all material wealth and far richer in future possibilities, to risk all to the hazards of war and to become the prey of weaker nations merely the lack of a sufficient naval strength is, to my mind, the supreme of national folly.

"The unjust restrictions that Great Britain is imposing upon our commerce during the progress of this war further emphasises to us the necessity of having a navy large enough to demand and enforce our rights. In modern commerce, with varied trade complexities, the nation that is helpless upon the seas is the prey of all marauders and has its future destinies directed by others."

ALLIED OFFENSIVE IS YET IN PRIMARY STAGE

Asquith Appeals to Munitions Workers to Forego Holidays.

Believes Workmen Will Co-Operate in Making It Plain to the Enemy That Present Intense Bombardment Will Continue.

London, July 13.—The Entente Allied offensive on the western front is only in its beginning, declared Premier Asquith today in announcing in the House of Commons that the government has decided to ask workers to forego their August holidays because of the demand for munitions in France. He expressed conviction that the workmen would co-operate in this plan so as to make it plain to Great Britain's foes that the offensive in its present intensity of bombardment and assault, would, if necessary, be "continued indefinitely." The premier also announced that by royal proclamation the August bank holidays would be postponed, and he appealed to all classes for postponement of all holidays until further and definite progress of the offensive has been received.

"The offensive," he said, "is only in its beginning and it necessarily requires for its success a continuous supply of munitions of all kinds. From the success achieved, we have been able to guage the paramount necessity of avoiding even the slightest risk of restriction of the use of munitions in the field, not merely in the weeks immediately before us, but until our objective is achieved. In the opinion of the commander-in-chief, there must be no slackening in the output, even for a moment. I, therefore, appeal to the patriotism of the workers and the public generally to again postpone their holidays in order that the attack, so brilliantly begun, can be carried through to a triumphant conclusion."

STILL UNABLE TO ISOLATE PLAGUE

No Discovery of a Cure for Infantile Paralysis is Announced at Mass Meeting.

IS NO OCCASION FOR ALARM.

Dr. Flexner Points Out That Death Rate from the Malady is Lower Than From Other Maladies Considered Less Serious.

New York, July 13. — Leaders in the medical profession, public health experts, from many cities, philanthropists and charity workers thronged the rooms of the Academy of Medicine here tonight to attend a mass meeting for the discussion of infantile paralysis, the plague which has brought death into hundreds of homes here in the past few weeks.

Those who hoped that a cure for the disease would be heralded or that isolation of its deadly germ would be announced, were disappointed. Dr. Simon Flexner, of the Rockefeller Institute for Medical Research, and other experts, told of the progress made by medical science in combatting the disease, but they had no epoch marking discoveries to proclaim. He declared, however, that there is no occasion for panic, and that the death rate from infantile paralysis is lower even than from other maladies considered far less serious.

Dr. Haven Emerson, health commissioner of this city, told what is being done to fight the epidemic, and asserted the widespread alarm which parents feel is not justified. He said that out of 2,600 suspected cases investigated only 1,640 true cases of infantile paralysis had been found, of which 308 resulted fatally.

Not So Serious as Supposed.

That infantile paralysis is neither so uncertain in origin nor so fatal or permanent in effect as generally supposed, was the assertion made by Dr. Simon Flexner, of the Rockefeller Institute, in a paper read at a mass meeting of physicians here tonight. While the death rate has varied from 5 to 20, this figure is not accurate, as only a small number of cases are actually reported, Dr. Flexner said. Many of those most seriously afflicted eventually make complete recoveries.

The origin of the disease is in the secretions of the nose, throat and intestines. The chief conveyor is the human being himself, Dr. Flexner said, whether consciously afflicted or not. Flies are known to have carried the infection in some cases, and poultry, pigs, dogs and cats are suspected. The chief means of dissemination are kissing, sneezing and coughing.

Very many cases also have been transmitted by mothers caring for the noses and throats of their children and then carrying the virus either to the other children or to their food, the expert declared.

Haskell, N. J., July 13.—Four men were killed, one is missing and more than a score of others were more or less seriously injured by an explosion of 600 pounds of nitro glycerine in the mixing house of the Dupont Powder plant here about noon today. None of the injured is expected to die. The explosion in the mixing room was followed by another in a nearby house which was used for drying smokeless powder.

N. C. EDITORS THRILLED BY WAR CORRESPONDENT

W. G. Sheppard Describes Experiences in European War Zones.

Convention at Durham Adjourns to Meet in 1917 at Morehead, After Electing Officers—Paper Factory Wanted.

(Special Star Telegram.)

Durham, N. C., July 13.—The forty-third annual convention of the North Carolina Press Association closed a two days' session here this evening after selecting Morehead City as the 1917 meeting place and the installation of newly elected officers for the ensuing year. Morehead was selected, provided the hotel rates are found to be reasonable.

The following were elected officers for the ensuing year: President, E. E. Britton, Raleigh; first vice president, Stanford Martin; 2nd vice president, R. F. Beasley; third vice president, Z. W. Whitehead; secretary, J. B. Sherrill; orator, H. Galt Braxton; historian, M. L. Shipman.

The final session of the convention was held in the Academy of Music at which time a more than interesting address was delivered by W. G. Sheppard, war correspondent. Mr. Sheppard possesses no great oratorical ability, but the war reporter delivered a story to his listeners that throbbed with interest. He carried the handful that gathered to hear him through the European war zone, pointing out those things which appealed to him as of most interest. Although the speaker's voice had very little carrying ability and despite the fact that he was speaking to an almost empty house that will accommodate two thousand people, every word he uttered was easily distinguishable because of the absolute quiet. He was telling his lis-

(Continued on Page Eight.)

BRITISH MAINTAIN PRESSURE AGAINST THE GERMAN LINE

Heavy Infantry and Artillery Fighting Has Enabled Them to Make Further Gains.

THERE IS A LACK OF NEWS

German Forces Under General Bothmer Still Holding on in the Region of Tarnapol.

London, July 13.—There was very little news today of the battle of Europe—a term commonly applied to describe the new co-ordinated Entente Allied offensive on all fronts. But the British official statement tonight shows that heavy infantry and artillery fighting has been in progress and has enabled the British to maintain their pressure on the Germans and advance their line at various points.

The British forces at Mametz wood are within 300 yards of the German second line. The French forces are separteed only by the narrow Somme Valley from the German third line through Peronne and Mont St. Quentin, and both armies are doubtless engaged in preparations for the next attacks.

A conference of the munition ministers of the four Entente Allies held in London and presided over by the British war minister, David Lloyd-George, shows that effective steps are being taken to insure munitions and their proper distribution.

Major Doraht, in the Berliner Tageblatt, expresses the opinion that the coming days will be decisive of the issue of the whole war.

The reticence of the Russian official communications at the present moment, judging by precedent, indicate the progress of some important movement which will only be announced when the operations are concluded.

The Austrian and German reports shows that General Von Bothmer is still holding on in the region of Tarnopol, although the two wings of the Russians advance are 40 miles beyond Tarnopol, which seems to show that Von Bothmer feels secure in his line of retreat. Heavy fighting continues on the Stokhod line and northwest of Buczacz.

The Cologne Gazette foreshadows the introduction in September of a bufter and fat card throughout the Empire, providing for three ounces a head each week and probably an egg card, entitling the holder to two eggs a week.

BRITISH ARE ESTABLISHED IN TOWN OF CONTALMAISON

Berlin, (via London), July 13.—In the section of today's German official report, dealing with the operations in the Western theatre it was announced that British forces had established themselves in the town of Contalmaison between the Ancre and Somme rivers. The statement says:

"Artillery fire continued with great intensity yesterday south of the Somme, the French with no success in attacks which they several times began on both sides of Barleux and near and west of Estrees. They were compelled to turn back under our effective curtain of fire, suffering the most severe sanguinary losses.

"The British have established themselves in Contalmaison.

"East of the Meuse artillery fighting continues active. Infantry positions won have been consolidated. The number of prisoners has icreased by 17 officers ad 243 men and now stands at 56 officers and 2,349 men.

"Near Freilingheim, on LaBasse canal on LaFille Morte Height, east of Badonvillers and near Hierzbach, German patrol engaements were successful.

"North of Soissons a French biplane was compelled to land within our lines."

The statement regarding the Eastern theatre says:

"Army group of General Count Von Bothmer: German troops by an encircling counter attack carried out near and to the north of Olessa northwest of Buczacz drove back the Russian troops which had pushed forward, and more than 400 prisoners were taken."

FEARING ARREST GREENSBORO YOUNG MAN COMMITS SUICIDE

Fuller Holliday, After Breaking Machinery, Takes Poison.

(Special Star Telegram.)

Greensboro, July 13.—Fuller Holliday, 23 years of age, took carbolic acid this afternoon at the home of his father on Lexington avenue and died in ten minutes. He was a son of David Holliday who said the act was caused by fellow employes in a lumber plant accusing him of breaking some machinery and telling him he would be arrested for it.

Interment will be in Randolph county, of which he was a native.

TWO BARGES BREAK LOOSE.

Schooner Carrie Strong Wrecked in Storm—Crew Believed Lost.

Washington, July 13—The coast guard cutter service received a message from Beaufort, N. C., that two barges had broken away from the tug W. B. Keene today 30 miles northeast of Frying Pan Shoals.

The schooner Carrie Strong, of Thomaston, Me., bound from Mobile for Matanzas, was wrecked in the hurricane of last week in the Gulf of Mexico, and her crew is believed to have been lost. Lieutenant Hottel, of the coast guard cutter Tallapoosa, reported today that he had found the schooner bottom up about 250 miles west of Key West. The derelict was destroyed.

NO LULL APPEARS ON EASTERN FRONT

Russian Forces Under General Brussiloff Continue to Strike Tremendous Blows.

ADVANCE ON KOVEL HALTED

Von Bothmer's Line on the Lower Stripa Penetrated Temporarily at Some Points—British Hold Gains in Somme Region.

London, July 13.—The most violent fighting in the great Entente Allied offensive is on the eastern front where General Brussiloff's tremendous blows are being continued without apparent lull or hesitation. Temporarily at least, the Austro-Germans appear to have halted the Russian advance along the Stokhod. Both sides are reported to be hurling huge reinforcements of men and guns into this titanic struggle, the prize of which is the immensely important strategic town of Kovel.

Farther to the south a battle of almost equal intensity is raging on the lower Stripa where the Russians are striking north in an effort to crush General von Bothmer and flank the entire Austro-German line. The Austrians admit that the Russians penetrated von Bothmer's front at some points, but assert they were driven out again in counter attacks. The Russians claim to have taken 2,000 prisoners but make no mention of a gain in territory.

The British have held their gains on their portion of the Somme front and the usual period of consolidation and the pushing forward of the big artillery is presumed to be taking place. A similar situation exists on the French line, and a remarkably brief French official statement simply records the continuance of the bombardment of Fort Souville in the Verdun region.

Two important statements in regard to the situation on the western front were made in London on Thursday. Premier Asquith, speaking in the House of Commons, declared that the British supply of munitions was ample and that the Franco-British offensive was merely at its beginning. The second statement was made by Minister of War Lloyd-George, addressing an Allied conference on equipment. The minister of war declared that the British output of ammunition will soon be overwhelming and that the new factories and workshops have not yet attained one-third their full capacity. He asserted that the tide of victory now is flowing in the direction of the Entente Allies and predicted that it would continue to do so.

NEXT STATE SHOOT AT CAROLINA BEACH

L. Clayton Grant Tied Joe Pennington for Championship.

Wilmington Men Make Fine Showing in Events at Tarboro This Week Returned to the City Early This Morning.

Tieing Mr. Joe Pennington, of Tarboro, for the State championship and lacking but one target of winning from him in the shoot-off L. Clayton Grant, Esq., of Wilmington, who was one of the participants in the State Gun Shoot at Tarboro this week, made a most excellent showing and received the hearty congratulations of all present. The shoot closed yesterday after having been in progress for two days. It was decided to hold the next annual shoot of the State at Carolina Beach next July.

Wilmington was represented at Tarboro by Messrs. J. J. Loughlin, Geo. S. Boylan, L. Clayton Grant and Dr. J. H. Dreher. Southport was represent by Col. Robert Stride. The party returned to the city early this morning.

In addition to running Mr. Pennington to such a close race for the State championship, Mr. Grant won several other trophies and Mr. Boylan also was a winner in several events.

The Wilmington participants in the State shoot at Tarboro report that it was a most successful one with quite a large number of entries. The Tarboro folks gave their visitors a fine time and the stay of two days in the pretty town was very much enjoyed.

COASTS SEARCHED FOR MAN-EATERS

(Continued From Page One).

points along the New York and New Jersey coasts regarding the killing of sharks, but only one appears to have had any foundation in fact. This was the news brought in by Anthony Lundy, captain of a fishing boat, who said his party of New York fishermen had clubbed to death a nine-foot sharp, weighing 450 pounds, while fishing off the coast of Elberton, N. J.

No Serious Trouble Before.

"The remarkable thing about the recent shark ravages," said Dr. C. H. Townsend, director of the aquarium here, today, "is that we have never had serious trouble with them before. Every year, about the middle of June these big fish that are so dangerous around Cuba and the West Indies, move north with the warm weather and stay till the middle of September. But they never before have attacked human beings.

"Sharks in these waters are of 18 to 20 different kinds. Of these only half a dozen are dangerous, the white, dusky, blue, backarel, and tiger being the worst. They run from 10 to 15 feet and are the only kinds which have both the courage an dthe jaws and teeth to be dangerous. Whether the sharks which have been causing such trouble on the Jersey coast are a new kind or simply a few "bad" ones which have tasted flesh before, it is impossible to say. Danger from them, however, is always present."

Three boats to Carolina Beach Sunday. Steamer Wilmington leaves 9:00, 2:30 and 7:30.

GAINED 8 POUNDS ON TANLAC AND IS THANKFUL FOR IT

W. H. Weatherly Interests Local Men and Women at Bellamy Drug Store With Strong Statements of His Changed Condition.

"When two bottles of Tanlac can put eight pounds of weight on a blacksmith—a man who works hard—after he had been generally run-down, there is reason for praise to its merits and that's why I'm here," was the enthusiastic statement that attracted attention in the Bellamy Drug Store. The speaker was W. H. Weatherley, of Wananish, west of Wilmington.

Continuing, he told the Tanlac Man and interested listeners: "Indigestion was responsible for my weakened condition. Why, I could hardly eat anything without suffering later from extreme distress. Sleeplessness, of course, was another ailment that caused such a condition. In such shape it was hard for me to do blacksmithing.

"Well, as soon as I knew what Tanlac was doing for friends of mine I started on it. I have just finished my second bottle and consider the change it has worked in me remarkable. I can now eat anything I care to, my sleep is sound and refreshing and nervousness doesn't trouble me any more. I have gained eight pounds and have been built up in every way. I feel stronger than for many months, and my appetite is ravanous for every meal. I have called here today to get more Tanlac, and to offer my endorsement so that others will know just what this great tonic can do."

Learn more about Tanlac, the ideal reconstructive tonic-appetizer, blood and system purifier and invigorant, from your neighbor who knows or visit the Bellamy Drug Store where the Tanlac Man explains its merits daily. C. L. Halstead sells Tanlac in Burgaw; A. N. Rhodes & Co., Rocky Point; J. L. Southall, Magnolia; Watson's Pharmacy, Southport; G. W. Kirby, Supply; Bradham Drug Co., New Bern. Each town has its Tanlac druggist.

RECORDER EMPIE FINDS SUNDAY LAW TO BE VALID

Finds Drug Store Not Guilty But Confectioner Convicted of Selling.

Recorder Brooke G. Empie yesterday ruled that the new Sunday ordinance adopted by City Council several weeks ago is valid. In two cases before him for consideration yesterday, he found that a drug store may sell goods on Sunday but that a confectionery store may not sell on Sunday. Both cases were brought in order to bring the constitutionality of the law before the courts.

Under the new ordinance, passed June 24, the sale of merchandise on Sundays and the keeping open of places of business on the Sabbath are prohibited but drug stores, hotels, cafes and restaurants are excepted from its provisions.

William Sackley, who operates a confectionery store, where fruits, tobaccos and sotf drinks are sold, admitted through his counsel, Hon. John D. Bellamy and Emmett H. Bellamy, Esq., that he had sold goods on last Sunday and also admitted that he was conducting a business that the new ordinance was designed to close on Sundays. However, his counsel contended that the ordinance was unreasonable in its discrimination against people who were in practically the same line of business as drug stores were allowed to keep open on Sunday and were permitted to sell soft drinks and any other articles in stock. Mr. Bellamy entered a vigorous objection to the ordinance and asked the court to find that it was void. City Attorney Robert Ruark and County Solicitor George L. Peschau quoted decisions from the Supreme Court, holding that Sunday ordinances are a valid exercise of police power and could not be said to be discriminatory where several persons are dealt with in the same way.

After hearing the arguments of counsel, Recorder Empie announced that he would hold the ordinance valid and that he would find further that the defendant had violated it. Pending the arranging of the agreed statement of facts, judgment was continued.

In the case against Woodall & Sheppard, well known druggists of this city, it was charged that this firm had sold on last Sunday both soft drinks and articles of merchandise. The defendant was represented by Herbert McClammy, Esq., and Hon. John D. Bellamy appeared for the State.

Mr. Bellamy in an eloquent address pointed out that even if the validity of the ordinance was granted that drug stores could not sell anything other than drugs as it was distinctly stated that they could not operate except as drug stores to sell drugs and did not have the right to sell other things suc has obaccos and soft drinks. Mr. McClammy contended that the defendant came within the exception as stated in the ordinance and as such was not guilty.

The Recorder found in this case that the ordinance in his opinion permitted the defendant to sell and that, therefore, he could not find them guilty. The State asked for a special verdict but counsel for the defendant objected.

Mrs. W. H. Cobb, Mrs. S. E. Gulley and W. Borden Cobb, of Goldsboro; Mr and Mrs. George R. McNeill, of Whiteville; Mr. nad Mrs. M. C. Stegall, of Clarkton, and Mrs. John R. Hawes, of Atkinson, were among the arrivals at the Orton yesterday.

PROPOSALS.

The City Council will receive sealed proposals until Wednesday, July 21st, 1916, for the sinking of deep wells—one at Sixth and Nixon, one at Ninth and Dawson, one at Eighth and Castle, and one on Wrightsville Avenue and Orange street. The Council reserves the right to reject any and all bids or to accept bid on either pump and reject others, and to accept any bid that may seem to it to be to the best interest to the city. Specifications will be furnished by the Water and Sewerage Department. Address bids to T. D. Meares, City Clerk and Treasurer.

W. F. JONES,
Councilman.

THEATRICAL

In none of Hobart Bosworth's recent productions has he been cast more advantageously than in "Doctor Neighbor," a five-reel Universal feature which will be presented at the Royal today.

Bosworth has the role of Dr. Joel Neighbor, a famous surgeon whose scientific knowledge of medicine and surgery is generously used for the benefit of his suffering fellowmen. He loves his ward, Hazel Rogers, and asks her to become his wife. Hazel, however, has promised her hand to Hamilton Powers, the district attorney, and later marries him. She meets with an automobile accident and is attended by Dr. Neighbor, who is assisted by Christine Hall, Hazel's close friend, who is also a nurse.

Hazel's condition becomes hopeless and, unable to stand the suffering of her friend, Christine administers an overdose of morphine, from which the pain-racked patient never awakens. Dr. Neighbor is accused by Powers of causing the death of his wife, the doctor's ward, in order to obtain her estate, to which he is sole heir in the event of her death before she reaches her 21st year. He is tried and during the course of the trial, Christine cries out in the court room that the doctor is innocent and confesses that she was responsible for the death of her friend and companion.

Bosworth's portrayal of the role of "Doctor Neighbor," is most convincing, his loving kindness to his ward is shown in a charming manner, his anguish at her accident and death is depicted with the skill of the finished actor, and his composure during the sensational scenes in the court room is displayed with splendid dramatic art.

The role of Hazel Rogers, the 18-year-old ward, is played most attractively by Dorothy Davenport.

The other parts are all in the hands of capable players. Gretchen Lederer as Christine Hall, the nurse; Emory Johnson as Hamilton Powers, the district attorney; Adele Farrington, as Mrs. Preston.

"The Iron Claw" Today.

And who is "The Laughing Mask" now? Did you say David Manley? Well, you just take a slant at the 16th great chapter of "The Iron Claw" at the Bijou today and we're of the opinion that your deductions will all vanish in thin air, the same as those of Sherlocko the Monk.

For in this stirring two-reel chapter, entitled "The Unmasking of Davy" the Laughing Mask appears on the screen and holds up the whole bunch at the point of a revolver, including Davy. This puts Davy in bad, for since he found that pretty Margery Golden is soft on the Mask he has been leading her to believe that it is he. Don't blame him a blamed bit, either, do you? Anyway, it is all in the 16th big chapter today, and maybe you can furnish a good clue as to who he really is this week. Don't miss it.

"Tinkering With Trouble," is a great Heinie and Louie comedy scream which is also on today's bill, and then there is a rousing Lonesome Luke scream, "All Dolled Up" in which Luke makes some sort of a smash among the ladies. Don't miss it all. Today at the Bijou.

"Mary Page"—Grand Today.

The 10th great chapter of the "Strange Case of Mary Page" at the Grand today furnishes the first clue to the real murderer of Dave Pollock—that is the name of the chapter, too. It is startling in the extreme, and if you have been wondering who the guilty one was, you don't want to miss the startling developments in this chapter.

There is no lack of action in the visualized testimony of the witness examined during this chapter of the great trial which Mary Page is going through with. A plot to entrap Langdon when he runs against Pollock for Congress is shown, and Mary is implicated in the affair. The new clue is given to Langdon by a detective, who informs him that Pollock had a quarrel with several men over a card game the night before the murder. And Philip Langdon is about to come into his own, and is happier than at any time during the trial.

A great supplementary bill of big comedies will make out the total of today's great bill. It will be one that you will enjoy every minutes of, too.

And Now Who Is "The Laughing Mask"?

You All Thought It Was He——

5IN

BELL-ANS
Absolutely Removes Indigestion. One package proves it. 25c at all druggists.

FRECKLES

Don't Hide Them With a Veil; Remove Them With the Othine Prescription.

This prescription for the removal of freckles was written by a prominent physician and is usually so successful in removing freckles and giving a clear, beautiful complexion that it is sold by any druggist under guarantee to refund the money if it fails.

Don't hide your freckles under a veil; get an ounce of othine and remove them. Even the first few applications should show a wonderful improvement, some of the lighter freckles vanishing entirely.

Be sure to ask the druggist for the double strength othine; it is this that is sold on the money-back guarantee.

15 cents trip, Sunday, on Steamer Wilmington; leaves 7:30 P. M.

If Too Fat Get More Fresh Air

BE MODERATE IN YOUR DIET AND REDUCE YOUR WEIGHT. TAKE OIL OF KOREIN.

Lack of fresh air it is said weakens the oxygen carrying power of the blood, the liver becomes sluggish, fat accumulates and the action of many of the vital organs are hindered thereby. The heart action becomes weak, work is an effort and the beauty of the figure is destroyed.

Fat put on by indoor life is unhealthy and if nature is not assisted in throwing it off, a serious case of obesity may result.

When you feel that you are getting too stout, take the matter in hand at once. Don't wait until your figure has become a joke and your health ruined through carrying around a burden of unsightly and unhealthy fat.

Spend as much time as you possibly can in the open air; breathe deeply, and get from Elvington's Pharmacy or any druggist a box of oil of korein capsules; take one after each meal and one before retiring at night.

Weigh yourself every few days and keep up the treatment until you are down to normal. Oil of korein is absolutely harmless, is pleasant to take, helps the digestion and even a few days treatment has been reported to show a noticeable reduction in weight.

—Among the North Carolina arrivals at the Orton yesterday were: W. B. Fort, Pikeville; John McKay, Charlotte; H. A. Jarman and W. Bernard Petteway, Jacksonville, N. C.; Harry T. Patterson, New Bern; E. S. Wright, Boardman; Rev. A. R. Parshley, Southport; J. M. Rafferty, Raleigh; J. E. Robinson, Supply; B. F. Keith, Currie; J. D. Sutton, Southport.

Washington	39	37	.513
St. Louis	35	43	.449
Philadelphia	18	54	.250

New York, July 13.—New York regained the lead in the American League race today by winning the last game of the series from Cleveland 6 to 3. Klepfer was knocked out of the box in the sixth inning when the Yankees won the game by scoring three runs. Rain fell from the sixth inning until the game was stopped in the eighth with New York at bat, two out and two runs scored.

Cleveland .....000 210 00—3 10 2
New York .....100 003 02—6 7 0
Klepfer, Coveleskie and Daly; Shawkey and Walters.

Philadelphia, July 13.—St. Louis easily defeated Philadelphia here today 7 to 3. Pick, Philadelphia's third baseman, was spiked on the foot while touching out Johnson in the third inning and Row took his place.
St. Louis .....002 003 101—7 9 3
Philadelphia .....000 101 001—3 5 4
Weilman and Severoid; Nabors, Sheehan, Hasselbacher and Meyer and Carroll.

Washington, July 13.—Detroit made it three out of four by defeating Washington today 3 to 1. Young's triple which went through Barber, Foster's error, a pass and Heilman's double gave Detroit its runs. President Wilson saw the game, the first he had attended since the opening of the season.
Detroit .....030 000 000—3 7 1
Washington .....000 000 001—1 4 1
bames and Baker; Boehling, Shaw and Henry.

REFUSED ACTIVE MEMBERSHIP IN NATIONAL GOLF ASSOCIATION

Boston, July 13.—It was learned today that the Woodland Golf Club, of Newton, which supported its members, Francis Ouimet, J. H. Sullivan, Jr., and Paul Tewksbury, who were declared ineligible to amateur standing by the United States Golf Association, had been refused active membership in the national body.

The club has held an associate membership in the National Association and applied recently for active membership.

Formal notification of the National body's action has been served on the club officials but no reason for it has been given, it is understood.

Ouimet, Sullivan and Tewksbury were declared by the United States Golf Association several months ago to have lost their amateur standing because of their business connections. Ouimet and Sullivan are proprietors of a sporting goods house and Tewksbury is a salesman of such goods.

Sullivan and Tewksbury have been allowed to compete as amateurs at several open tournaments, especially those of their own club, and the State Golf Association has kept them on its amateur list.

Last week the executive committee of the National body issued an announcement that any club which permitted a disbarred member to play in an open tournament would be liable to be stricken from membership in the United States Golf Association.

Tewksbury was entered in the Woodland Club tournament which began today.

RAEFORD AND LAURINBURG DIVIDE A DOUBLE HEADER.

Raeford, N. C., July 13.—Raeford and Laurinburg split even in a doubleheader here yesterday, Laurinburg winning the first 2 to 1, and Raeford taking the second 1 to 0. Both games were played under protest. A protest was made by Manager McRae of Raeford, because Laurinburg allegedly had more hired players than allowed by the rules of the league. Murchison, for the locals, pitched both games and worked in great form.
Laurinburg .....000 101 000—2 7 2
Raeford .....000 000 001—1 4 3
Lamb and Smith; Murchison and McKeithan.
Second game:
Laurinburg .....000 000 0—0 7 0
Raeford .....000 100 0—1 7 0
Davis and Smith; Murchison and McKeithan. Umpire, Blue.

MAY SOON ABANDON ROWING AS INTER-COLLEGIATE SPORT

New York, July 13.—Rowing as an inter-collegiate sport probably will be abandoned at Columbia University in the near future. Official announcement to that effect is expected within the next few days and the resignation of the university from the Inter-Collegiate Rowing Association probably will follow. This action on the part of one of the three institutions which became charter members of the Inter-Collegiate Rowing Association in 1895, has been expected by close followers of rowing at Columbia since the poor showing of the local university crews at Poughkeepsie on June 17.

Columbia crews have competed in every inter-collegiate regatta since 1895 and won twice.

Rocky Mount Downs First Half Winners

IN GAME REPLETE WITH SLUGGING —SCORE OF 10 TO 5 JUST ABOUT TELLS STORY OF THE CONTEST

(Special Star Telegram.)

Rocky Mount, N. C., July 13.—In a game replete with slugging, Rocky Mount downed the visitors of the first half today at League Park by the score of 10 to 5. The score just about tells the tale. Both teams hit hard and often, the total including a home run by St. Martin, seven doubles, and two triples.

Alton started for Portsmouth and lasted two innings, giving way in the third to Manager Jim Fox, who yielded seven hits for a total of six runs during his stay of three innings. Gandy finished in good style. Brown, for the locals, went the whole route, easing up considerably after getting a seven-run lead.
Rocky Mount ..031 240 00*—10 11 2
Portsmouth .....110 011 010—5 10 1
Summary: Two-base hits, Moore 2, Reynolds, Calbert, Talbot, Parmalee, Marcan, Kircher; three-base hits, Eisel, Parmalee; home run, St. Martin; sacrifice hits, Parker, St. Martin, Brown, Parmalee; stolen bases, Eisel, Edwards; hits, off Alton 3, in 2 innings, off Fox 7 in 3 innings, off Gandy 1 in 3, off Brown 10 in 8; base on balls, off Alton 2, off Brown 2; Struckout by Alton 2, by Brown 4; hit by pitcher, by Fox, Carroll.

PITCHED NO-HIT GAME.

But Then Rose Hill Hurler Lost to Shallotte One to Nothing.

In what is said to have been perhaps the fastest amateur ball game ever played in the State, Shallotte took the second of series of games with Rose Hill on the Rose Hill diamond yesterday afternoon by the score of one to nothing. Johnson, the Rose Hill twirler, pitched a no-hit game ,the run having been made on a base on balls, a timely sacrifice and a wild throw. Swinson, pitching for Shallotte, yielded only one hit, but pulled himself out of several very difficult positions during the progress of the game.

The third game in the series will be played at Rose Hill this afternoon and later the Duplin champs will go to Shallotte for a series of three games.

New York, July 13.—Eastern teams predominate in the entries announced here today for the Polo Association Championship Tournament which is scheduled to begin at Narragansett Pier, R. I., next Monday. The Coronado Country Club team of Coronado, Cal., will represent the Pacific coast and the Aiken Polo Club, of Aiken, S. C., the South.

FORECLOSURE SALE

Notice is hereby given that the undersigned will, by virtue of the power of sale contained in a mortgage executed by Matilda A. Hayden, Mary Katherine Hayden, Mary T. Hayden and John Henry Hayden to Nonie F. King, dated the 14th day of February, A. D., 1914, and recorded in the office of the Register of Deeds of New Hanover County in Book 74, page 424 et seq., expose for sale at public auction to the highest bidder, for cash, at the front Court House door of New Hanover County, on Monday, the 7th day of August, A. D., 1916, at 12 o'clock M., all the right, title, interest, property and estate of the said John Henry Hayden in and to all of that lot, piece or parcel of land, situate, lying and being in the county of New Hanover, state of North Carolina, city of Wilmington, and bounded and described as follows, to-wit:

Beginning at a point in the western line of Third street, 66 feet south from the intersection of said western line of Third street with the southern line of Princess street; and running thence southwardly along said western line of Third street 66 ft.; thence westwardly parallel to Princess street 165 ft.; thence northwardly parallel to Third street 66 ft.; thence eastwardly parallel to Princess street 165 ft. to the point of beginning. The same being the eastern half of Lot 2, Black 166, according to the official plan of the city of Wilmington.

At this sale, only the interest of the said John Henry Hayden will be sold, and not the interest of Matilda A. Hayden, who owns a life estate in the same, nor the interest of Mary Katherine Hayden, Mary T. Hayden, or Ellen Agnes Hayden.

Dated and posted this the 7th day of July, A. D., 1916.

THE MORNING STAR

Published by the WILMINGTON STAR COMPANY, INC. Wilmington, N. C.

Entered as second class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT

PUBLISHERS' ANNOUNCEMENT.

THE MORNING STAR, the oldest daily newspaper in North Carolina, is published daily and mailed to subscribers outside the county at $6 per year; $3 for six months; $1.50 for three months or served by carrier in the city and suburbs at 60c. per month, or, when paid in advance, $7.00 per year; $3.50 for six months, $1.75 for three months

THE SUNDAY STAR, by mail, one year, $1.00; six months, 50 cents; three months, 25 cents.

ADVERTISING RATES may be had on application, and advertisers may rest assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, to persons carrying a regular account, or, if paid cash in advance, a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, excursions, society meetings, political meetings, etc., will be charged under the same conditions, except so much thereof as may be of news value to the readers of the paper, in the discretion of the editors.

TELEPHONES: Business Office, No. 51. Editorial and Local rooms, No. 61.

COMMUNICATIONS, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted, and, if acceptable in every other way, they will invariably be rejected, unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

ALL DRAFTS, checks, express money orders and postal money orders for the paper should be made payable and all communications should be addressed to THE WILMINGTON STAR CO.

FRIDAY, JULY 14, 1916.

TOP O' THE MORNING.

Sin is so sure in its work, so insidious in its influence, so certain in its punishment, that it is dangerous to trifle with it even for a moment. —CHAPMAN.

Never let a fool make a fool of you, etc.

Wilson wins by ignoring the advice of his critics.

He who laughs last must have heard a right fresh joke.

A statesman stands for something but a politician simply runs for something.

Some of us have an idea that we are haughty but others think we are unconsciously insolent.

Let well enough alone. The country is enjoying prosperity and peace. The people are not likely to prefer war to peace.

Maybe this is the third round in the European fight. None of us knows whether it is the beginning of the last round or not.

A mother may never raise her boy to be a soldier, but that won't keep him from regarding Jesse James as a great figure in American literature.

Mrs. Carrie Chapman Catt, president of the National Woman Suffrage Association, has had a conference with Candidate Hughes. Mrs. Catt's place is on the fence till she can confer with Candidate Wilson.

Says the Jacksonville Times-Union: "Kansas has set up a whipping post for wife beaters." Owing to the fact that Kansas is hopelessly Republican, the necessity for the whipping post there is admitted.

Might as well swat him now as to have to have to swat him some other time, is the view of many a man who wouldn't take a hand in the swatting either now or later on. Swat advocates rarely ever participate in the swatting.

"Exquisitely the fit man for the crisis" might apply to some of our lady friends, but we have our doubts whether Colonel Roosevelt speaks in good form when he makes those remarks concerning a presidential candidate with whiskers. He ought to confine himself to Rough Rider adjectives and adverbs.

At the street corner conference yesterday morning the discussion was more reprehensible than comprehensible, so the result was that no philosophical and logical solution of the great foreign and domestic questions of the day was agreed upon. All theories were rejected and everything turned out as expected.

Things happen in cities in proportion to their size. The greater Wilmington grows the greater will be the things that happen. We can fully expect that, so the main thing is whether Wilmingtonians are equal to all occasions and can adjust themselves to the conditions of a growing city. Cities with size to them can't help getting in the date line class. Consider the tranquility of Podunk.

The Durham Herald remarks: "The Colonel seems to be under the impression that the Progressive party was his to do as he pleased." The Progressive national convention acted in such a way as to confirm the Colonel's impression in that respect. Nevertheless, many Progressives all over the country resent the idea that they constitute any part of the goods delivered to the G. O. P. by order of the Colonel. He seems to consider a Progressive about the same as a chess player does a pawn.

TEMPORARY PROSPERITY AS A SCARE

The Republicans are forced to acknowledge the fact that this country has been enormously prosperous during the last two years, but they refuse to give President Wilson any credit for it. They attribute it to the war in Europe, overlooking the fact that peace in America had a great deal to do with it and also forgetting that they blamed it all on Wilson just after the sudden breaking out of the war in 1914 also "temporarily" paralyzed the business of the South and the whole country. They said then the war had nothing to do with it but that it was the Democratic administration. As to the prosperity that now prevails, Europe furnished the war but Wilson furnished the peace to American producers by keeping us out of the war. We assert that peace gave us our best opportunity to attend to business and become prosperous.

At first the war paralyzed things in America and doubtless they would have been paralyzed yet, but the Wilson administration gave the country a new banking law which prevented the money trust in New York from further controlling the country's financial system. The Reserve Bank system immediately eased up the financial strain in this country, and it was especially a godsend to the cotton growers of the South and the grain growers in th eWest. Possibly the Republicans may pretend to believe that the Wilson administration did not have anything to do with this country's prosperity, but they will first have to convince millions of sensible Americans that the Reserve Bank Act did not have a large share in producing prosperity by providing the people with money with which to do business.

Well, the people surely know that, and they also know that the very first relief and prosperity the country got was when the Wilson administration rushed the Reserve Bank system into commission to take care of a disastrous situation in the South and West, and to stay threatening suspension of industry at the North. The very industrial fabric of the country trembled at the outbreak of the war, but the Wilson administration saved the day by turning the money loose. The war was doing its worst for us at that time, and if Woodrow Wilson did not stay the situation then, who on earth did?

Even after the war started and created an immense demand in Europe for cotton, foodstuffs and war munitions, ocean freight rates and insurance went out of sight because of the danger from German sea raiders. The marine underwriters would not take risks on ship cargoes, but again the Wilson administration saved the day. Did it? Why didn't it? Certainly it established the government insurance bureau and it kept commerce going till the sea raiders disappeared from the sea.

Mr. Hughes is telling the people that this prosperity is only temporary, and that it will go to pieces as soon as the war is over. Posibly it may, but that is only what he guesses about it. Any other man's guess is just as good, and there are the Steel Trust people, for instance, who express confidence in a great volume of business long after the war closes. They are more apt to be right, for what Europe is now spending for war will have to be spent to repair the destruction. Prices may fall, but nobody expects war prices to prevail during peace, and surely peace would be much preferred to war and war prices. Mr. Hughes cannot guess any better than Tom, Dick and Harry can guess so far as future economic changes are concerned. Political ideas won't cut a bit of ice against the stern economic laws that will go into effect after the war, whether this country has a Republican or a Democratic president.

Whatever economic changes may occur after the war, this country does not need a change in its administration. The people have every reason to believe that Wilson saved the financial crisis in war times, kept American commerce on the go, kept the country out of war and enabled it to profit instead of lose by war, and, therefore, they have reason to believe that he certainly can handle all peace problems as well as he did war problems.

Really and truly, people need not believe what Mr. Hughes guesses so long as they can think for themselves. Even if he happens to guess right, it is no reason why a Republican administration would meet the situation half so well as another Wilson administration. The main object of Republicans is to scare votes out of the American people, but we hardly think the people can be so easily frightened at any man's guess at the future.

ONE OF THE WAR'S FREAKS.

When the war broke out in Europe, the iron barque Indra, a German ship, had sailed from Taltal, Chile, with a cargo of nitrate of soda, valued at $125,000. In mid-ocean the news was flashed to her from a passing ship that war had been declared, and her captain realized at once that going on across meant the sure capture of his ship and cargo. He turned back and headed for New York to intern. He kept a sharp look-out and managed to get safely into port in September, 1914, about 30 days after the war began.

The Indra anchored off Stapleton, Staten Island, and the captain tried to dispose of his cargo. Litigation prevented the sale, and meanwhile the value of the cargo increased at a fabulous rate. The price of nitrate kept rising, and what was a cargo originally worth $125,000 became one worth nearly a million dollars. At any rate, the cargo was sold a few days ago for $875,000, an increase of $750,000 over the original value. While the ship was anchored, the value of her cargo increased $7 for $1, so had a Wilmingtonian invested less than $150,000 and had such luck with it, he would have become a millionaire in less than two years.

Previous to the war, North Carolina farmers had been using nitrate of soda for fertilizer purposes at a purchase price of $56 to $60 a ton. However, war created a tremendous demand for nitrates for munitions purposes and as it was hard to get, the price rose so rapidly that a farmer might as well have used gold dust for fertilizer.

For a while the war paralyzed Chile's nitrate industry, just as it did the South's cotton industry, but the Chilean industry soon got on a tremendous boom. Production has been kept up at a terrific rate and the price bounded skyward in April, chiefly owing to demand in the United States. The Chilean mines in April produced 5,337,592 Spanish quintals of 101.4 pounds or 541,232,929 pounds, and of the total 498,275,630 pounds were exported. At present the mining companies are declining to rush production and a number of the plants in Chile have had to shut down, owing to a lack of jute sacks in which the nitrates are shipped. The nitrate industry at Taltal is largely owned by Germans, but all shipments from there have been discontinued because the British blockade has prevented the German companies from securing the necessary sacks.

Previous to the war, Wilmington's imports of nitrates amounted in value to several millions of dollars a year and the volume of such imports was steadily on the increase. Even then, nitrates were considered so valuable that when a cargo was unloaded, every sack coming over the ship's side had to be weighed and paid for in cash on the spot.

AN IMMENSE OPPORTUNITY.

The greatest opportunity that the South has today, industrially or otherwise, is in the livestock industry. We have been convinced of it for years when the subject has been generally looked upon with indifference. We are waking up, however, and we will yet be able to recognize the fact that there is not in all the South's factories or mineral resources a mere fraction of the opportunity there is in livestock.

Let's see whether that is just an opinion or not. Let's look at the facts in the case and then come to a conclusion, such as we will be forced to do if we will give heed to what the United States Department of Agriculture hands to us in some startling statistics concerning the diminishing meat production in this country, compared with its expanding population.

The Department of Agriculture has made an exhaustive study of the meat situation and the meat prospects for years to come. Editor Theo. H. Price, of Commerce and Finance, a great New York publication, declares that "its findings are not surprising to those who have given the subject serious thought." A growing shortage in the number of meat animals, the increased cost of production of livestock and the diminishing purchasing power of money has created high prices, which, Mr. Price says, inevitably "must be permanent." So long as that is the case, the raising of livestock in the South offers sure profits for our farmers and consequently the industry becomes exceedingly attractive as an opportunity for the whole South. Commerce and Finance thus summarizes the government's view of the meat situation:

"Between 1907 and 1914 there was a decline in the number of cattle in the United States but the last two years have seen the number increasing again although the number on farms and ranges the first of this year was nearly 11,000,000 less than in 1907. The number of swine has been increasing rapidly, having risen from 58,000,000 to 68,000,000 in the years from 1910 to 1916. However, the number of sheep has been diminishing constantly in that period. Production of meat is increasing but not proportionately to the population.

"A number of causes are responsible for the shortage in meats. One is the losses from exposure and disease. About two million cattle die each year from these causes. It is said hog cholera alone causes a loss of $75,000,000 a year to farmers. In 1914, 7,000,000 hogs were taken by the disease, whereas in 1894 only 2,200,000 fell prey to it. Had the 7,000,000 hogs lost in 1914 been saved, they would have furnished every family in the United States with 40 pounds of pork.

"Another cause for the livestock shortage is in the farmers' ignorance of proper feeding. It is stated that over a hundred million dollars worth of feedstuff is wasted annually on the farms and stock raisers frequently are ignorant of the practices of winter feeding and winter pasturage on alfalfa and cultivated crops. Cottonseed meal is used in Europe to great advantage in winter feeding of stock and the Europeans are far in advance of the farmers of this country in selecting nutrients for their herds.

"The third defect in the American scheme of animal husbandry has been lack of skill in breeding. With a better selection of bulls and better management of breeding animals through the year, the calf crop may be increased 5 or 10 per cent and the weight of a two-year-old steer increased by 30 pounds.

"All these factors are important as bearing upon the future meat production. Conditions throughout the world are pretty much the same as in the United States and prices are expected to go higher. However, they can be arrested by proper conservation.

"The United States is the largest meat consuming country in the world. Its meat bill is larger than Germany's which country in normal times consumes more meat than do Russia, Great Britain and France. Our imports of beef have been greater lately than our exports and this is a dangerous sign.

"The country needs more livestock: It has the ranges to support it and farmers will find profit in raising cattle, hogs and sheep if modern methods are applied. Incidentally if per capita consumption could be lowered meat prices might be kept within reason."

We ought to be able to see that if we increase cattle production by 20,000,000 it will hardly be what we had per capita when our population was less in 1907. Estimating a shortage of 11,000,000 cattle alone at $20 a head, we find that we have a cattle opportunity of $220,000,000 to catch up with, if we only increase production to what it was in 1907. Yet that is hardly a drop in the bucket so far as the actual needs of this country and the world are today.

Even as a matter of necessity, the South will be compelled to produce its own meat. It won't pay to raise two to three pounds of cotton to exchange for one pound of meat. It is cheaper to raise meat with which to buy cotton.

CURRENT COMMENT.

Still, we cannot escape the conclusion that in the day when all girls can read and speak French and all the boys know Latin and Greek, it is going to be hard to snapshot a girl with a frying pan in her hand or find a boy doing a lively turn with a hoe in the cotton patch.—Houston Post.

There are multiplying proofs that a substantial part of the Progressives refuse to be delivered to their purchasers. The effort to sell them out has naturally had the effect rather of causing them to feel that they want to get as far away as possible from both the sellers and the purchasers.—Raleigh News and Observer.

The Wilmington Star says: "A man of 60 acknowledges that he was foolish when he was 25, but the probability is that it is only his age that prevents him from being just as foolish as he ever was." But he didn't know he was foolish when he was twenty-five so he may be foolish as ever at sixty for all he knows.—Jacksonville Times-Union.

Mrs. M. B. Mahaffee, of Caroleen, gives an excellent appreciation of the benefits of the moonlight school, incidental to an incident of illiteracy of a recruit at Camp Glenn. The man who could not write his name learned to write an intelligent letter and in a good, round commercial hand, after 10 nights at school. In all parts of the State similar results were obtained in the moonlight schools and the teachers who took a volunteer part in these institutions have the satisfaction of having rendered their State a service of extraordinary value.—Charlotte Observer.

The sociability tour of the Raleigh Chamber of Commerce deserves and will get the full attendance of 150 representatives planned for. It should carry with it the interest of the entire city. The time has passed when the people of the State did not know Raleigh. It has perhaps become true that Raleigh, as it has grown, has come to know the State less. It is a dangerous thing when a city reaches a sense of self-sufficiency—which is always false in fact. On the coming tour the chamber of commerce will carry to more than a score of thriving North Carolina towns one hundred and fifty of the Capital City's business men, to "get acquainted." To many of them the trip will be a revelation of the spirit of growth and initiative that that has laid hold upon towns, that have been no more than names and stations, and are now thriving centers of business and industry. In its primary intent the tour is in the nature of a brief educational holiday. It is not to "get business"; but, for every Raleigh man who desires to do business to the best advantage and with understanding of the conditions with which he must work, it will be good business to go along.—Raleigh Times.

COUNTIES FIGHT TYPHOID.

Union, Catawba, Stanly and Scotland Apply for Anti-Typhoid Campaigns.

Raleigh, N. C., July 13.—Four new counties, Union, Catawba, Stanly and Scotland, have each made application to the State Board of Health for the board's plan of typhoid prevention work which it does in co-operation with the county, free to the people. Each of these counties appropriated $400 for this work, and, accordingly, vigorous anti-typhoid campaigns will soon start in all four counties.

Dr. W. T. Carstarphen, of the Medical School of Wake Forest College, will be in charge of the work in Union starting Monday, July 31. Dr. T. M. Jordan, of Raleigh, will have charge of the work in Catawba starting Monday, July 31. Dr. Chas. S. Mangum, of the Medical Department of the State University, will take charge in Stanly county, whose work will start also Monday, July 31. Dr. A. C. Bulla, who is now engaged in anti-typhoid work in Charlotte, will go to Scotland from Charlotte probably August 17, to take charge of the work there.

Nine counties in all have arranged for campaigns against typhoid fever this summer. Besides the four mentioned above these are Bladen, Richmond, Cabarrus, Mecklenburg, Alamance. Campaigns are now in progress in Alamance and Mecklenburg and from all reports the people are welcoming this means of becoming immunized to typhoid fever.

Washington, July 13.—The bodies of six unidentified negro troopers, killed at Carrizal, arrived here today from El Paso and will be buried tomorrow with full military honors in Arlington cemetery.

MILLER'S ANTISEPTIC OIL KNOWN AS

Snake Oil

Accomplishing Most Wonderful Results.

Mrs. E. M. Montgomery, Route 1, Jackson, Miss., states: "Morphine alone would relieve me of my suffering until I tried Miller's Oil, which gave me such quick results. I have used it for rheumatism, stiff, swollen joints, nueralgia, pains in my limbs, and after I applied it to the affected parts the pains disappeared, and I am thankful to say I have had no use for dope of any kind since. I will never be without a bottle of this wonderful oil in my home; it is a pleasure for me to recommend it to my friends and the public in this manner."

We are constantly receiving testimonials similar to the above from thousands of grateful users of this wonderful Oil. It should be in every home. Accept no substitute, for there is nothing like it. Golden red color only. Every bottle guaranteed. 25c. and 50c. a bottle, or money refunded by leading druggists. Hardin's Pharmacy.

HEALTH IS WEALTH

by John B. Huber, A.M., M.D.

He that hath health is young.

The Typhoid Fly.

WE have typhoid fever with us more or less all the year around; but the greatest mortality is in the fall. Hence doctors speak of it as the autumnal disease. It was formerly thought that city people going for their holidays and vacations contracted typhoid from the wells a: l from impure milk they got in country boarding houses. Unquestionably the old oaken bucket, the babbling brook, and the rustic dairy have oftentimes been to blame; and vigilance concerning them should not be abated one jot. But we have been learning a great deal about flies; and have become convinced that many an urbanite has contracted his typhoid before ever he went into the country; as also may a tourist and motorist who has perhaps unjustly blamed the country hotel. Count back two months before the fall rise in the typhoid death rate and you will be in with fly-time—when this insect flourishes most luxuriantly. Your fly is the most congenial mixer in the cosmos. It's all one to the fly; he visits indiscriminately the manure heap (95 per cent. of him are born there), the privy, the spittoon, the dead quadruped in the public thoroughfare, the sick room of a typhoid patient; and in such ways is likely to get thoroughly saturated with typhoid germs. Then he alights on unprotected vegetables, meats and fruits; and so goes through your unscreened window and kitchen doors to your sugar bowl, your milk pitcher and your baby's bottle.

Now, the incubation period (when one has contracted typhoid and does not realize he has the disease) is about a fortnight. This period is likely to tally with the greatest fly prevalence. Typhoid fever, from the beginning to the end lasts about two months; two weeks incubation; four weeks of about as miserable sickness as there is; and two weeks more (longer, indeed, if there is a relapse) before we can say convalescence is really on. And then September or October is reached. The lesson here is obvious; there is little use in swatting the fly—starve him; separate him absolutely from his provider, if you want to make this filthy creature extinct.

A CHILD'S DIET.

S. A. P. writes: What would be a good weekly dietary for children from three to five years, with weak digestion? I would like to overcome same. I have to be very careful what I feed the older boy (of five), as his stomach is apt to distend since an early age. He is not so irritable as formerly.

Answer: Breakfast: Cereals well cooked and served with cream and sugar. Eggs in any form except fried. Bread or toast and butter. One or two glasses of milk. Dinner: Broths and soups. Fresh fish broiled, boiled or baked. Meat three times a week—steak, chops, beef or lamb. Vegetables: Potatoes once daily with cream or beef juice, spinach, asparagus, green peas, string beans, stewed celery, squash and new beets. Deserts: Baked apple, stewed prunes, oranges, rice, sago, tapioca, bread puddings, without raisins, soft custard junket, ice cream occasionally. Stewed pears and peaches and ripe grapes. Supper: Cereal or bread and crackers, and one to two tumblers milk. Forbid: Ham, sausage, pork, salt fish, dried beef, corned beef, goose, duck, broiled or stewed kidneys, liver and bacon, stewed liver, rich gravies, tomatoes, pickled beets, carrots, pastries, griddle cakes, fresh bread, meat pies, rich cakes, hot biscuit, meat stews, raw celery, onions, radishes, cucumbers, muffins, preserves, doughnuts, canned fruits, tea, coffee, liquors of all kinds.

BLIND BOIL.

M. W. writes: 1. I am troubled with a swelling on my face that looks like a boil, but does not break. I have been troubled that way off and on for about a year. 2. Do you think either affects the hair and eyes?

Answer: 1. Probably a blind boil. There may be pus under the skin. Have the doctor examine and lance if need be. 2. Won't affect the hair; the swelling may extend to the eyelids, not the eyes.

John B. Huber

This column is devoted to disease prevention; to physical and mental hygiene; to domestic, industrial and public sanitation; to the promotion of health; efficiency and long life. The latest developments in medical science will be presented. Questions of general interest will be answered here, space permitting—all others by mail if stamped return envelope is enclosed. Requests for personal diagnosis or treatment cannot, however, be considered in any way.

ANNUAL MEETING OF CHAMBER OF COMMERCE

New Executive Committee Elected for Ensuing Year.

Reports of Activities of Different Committees for Past Year Chief Feature—Change of Administration Effective.

Marking the inauguration of the new plan of administation by which the affairs of the Chamber of Commerce will be placed largely in the hands of an executive committee, so far as the actual operation of its government is concerned, the annual meeting of this body was held yesterday afternoon at 4 o'clock. The members of the executive committee were elected by ballot yesterday and will today elect the officers to serve for the ensuing year. The reading of the reports of the different committees, giving an outline of their activities for the past year, was the chief feature of the meeting yesterday.

The new executive committee is composed of Messrs. M. W. Divine, J. W. Yates, J. F. Roache, M. W. Jacobi, R. A. Parsley, E. T. Taylor, J. G. McCormick, J. B. Rice, Roger Moore, E. A. Metts and W. W. Love. The balloting began yesterday morning at 8 o'clock and the first four named of the committee received a majority of the votes cast. Upon the convening of the chamber for its annual session after the vote had been canvassed, Mr. M. S. Willard moved a suspension of the rules, so that the seven receiving the next highest number of votes might be declared elected. This met with the unanimous approval of those present and they were declared elected by President L. E. Hall. The new constitution provides that the members of the executive committee shall be elected by ballot.

Mr. L. E. Hall, the retiring president, who refused to stand for election for a second term, expressed his sincere thanks for the co-operation extended to him by the different committees during the year. However, he did wish, he stated, to register a protest against a tendency in the community to attend to its own business, and forgetting too often to give attention to the interests ha concerned the welfare of all. He wanted to urge the members of the chamber not only to pay their dues promptly but also to attend all the meetings.

Mr. J. Allan Taylor in moving that a vote of thanks be extended to Mr. Hall, stated that he had but one objection to make and that was that Mr. Hall had refused to serve a second term. He thought that he ought to have continued in office for another year. The vote of thanks was adopted unanimously.

Traffic Committee Report.

Mr. J. Allan Taylor, chairman of the traffic committee, made a verbal report of the activities of this committee. This committee had recently been instrumental in securing parlor cars for the morning and evening trains coming into Wilmington and had also secured the moving up of the morning train, formerly leaving at 7:40 a. m., to 8:40 a. m., which made it decidedly more convenient for passengers. The committee is still working on the proposition to secure an additional train on the Seaboard Air Line to Wilmington and also to Conway on the Atlantic Coast Line. However, these propositions have been held up temporarily.

Referring to the hearing to be held in Goldsboro next Monday relative to the petition of the Baltimore & Carolina Steamship Company for pro-rating of freight rates from North Carolina ports to interior points, Mr. Taylor pointed out that it is important that Wilmington not be used to get rates and then not get the benefit of them because if this were done this port would be the loser. He explained that with the obtaining of these rates, New Bern might be used by the B. & C. line while Wilmington would be cited as an important factor in getting the rates and after they were granted would not be benefited by them.

Mr. Taylor pointed out the need of having a traffic expert employed by the Chamber of Commerce. If this is to be an important port, said he, it is certain that it can never be made so by local business alone. In order to secure the freight from interior points, it is necessary to have reasonable rates and it is also important that other ports do not obtain an advantage. Only by the employing of an expert, said he, can we be sure of having the kind of freight rates that we should have or that we are entitled to.

Shipping and Commerce.

The report of the harbor, shipping and commerce committee, of which Mr. James Sprunt is chairman, pointed out that the export trade and commerce of Wilmington during the past 12 months has declined to such an extent, in consequence of the prevailing European war, that the arrival of a vessel in the port of Wilmington is now a novel occurrence.

"The cotton exports to foreign ports," the report continues, "have been about one-third of that of normal years. Italian, Scandinavian, British and American bottoms have been employed for direct export of cotton abroad and up to the present time these ships have been remarkably free from accidents or destruction. The rates of freight are just ten times normal rates. The extra war insurance is very heavy, and the business is now attended with so many new and difficult conditions that the trade has been contracted to a corresponding extent. Coastwise steamers and vessels have been taken up for war purposes and all tonnage is, therefore, at a very high premium.

"The United States Coast Guard Service, represented in part by the Cutter Seminole, has made an admirable record during the past year."

Attached to the report is a memoranda telling of the splendid service of the Seminole in rendering aid to the schooners John R. Penrose and the Carolina Gray and the barge Coastwise and also at the fire at the Chadbourn mill.

Mr. Hugh MacRae, chairman of the Agricultural and Immigration committee, presented a comprehensive resume of the activities of this committee. He spoke highly of the efficient services rendered by Mr. G. A. Cardwell, land and immigration agent of the A. C. L., in bringing the agricultural advantages of this general section to the attention of the public. He spoke of the possibilities of having not only a corn and agricultural show in Wilmington this fall but also called attention to the benefits to be derived from a live stock fair to be held either at the same time or at a different date.

"This section is naturally suited to

(Continued on Page Eight)

NEW AUDITORIUM PLEASED

"One Who Attended" Writes Interesting Baptist Seaside Assembly Side Lights.

Under the head of "Some Assembly Side Lights," the Biblical Recorder, Raleigh, organ of the Baptist State Convention, in its current issue carries a column of notes on the Baptist Seaside Assembly recently held at Wrightsville Beach, written by "One Who Attended." These sidelights will prove of interest to the people generally of Wilmington and the surrounding country. They follow:

"The large new auditorium erected by the Tidewater Power Company is located on Harbor Island, just a short distance out in the sound from the beach. It is large and well arranged. Some changes are to be made as to larger class rooms. It is all we could ask for. We are fortunate in this.

"Miss Katherine Johnson, the soloist, daughter of Brother Archibald Johnson, was a general favorite. She was always greeted with applause and she had to respond to encores all the way through. Her programme of old time songs was especially pleasing.

"A fine quartette from Wilmington, composed of Messrs. W. R. Dosher, A. L. Dosher, W. B. Muse and W. A. McGirt, sang for the Assembly every night There was nothing better. A good male quartet is hard to beat in the music line. It beats the rafter reaching that some folks seem to like.

"Dr. Hurt makes a fine presiding officer. He greases the wheels with pleasantries and sees that things run on time. And besides his heart is in the Assembly business.

"The Bar Association was in session at Wrightsville at the same time, and several of our good lawyers divided time.

"Carey J. Hunter enjoys an Assembly as much as a boy does a picnic. He comes at the beginning and stays by with his valuable help till the work is over.

"Dr. Hurt has been selected as official booster for the Assembly for 1917. Those of us who attended the Durham Laymen's Convention two years ago remember his successful persistence. He brings things to pass.

"Secretary Middleton has no busier week during all the year than Assembly week. It keeps him going early and late.

"There was a meeting of the Education Board at the Beach during Assembly. Dr. Vann took a peep in and was away again on his great mission of telling the people the importance of the Christian school.

"An attendance of 1,000 is the programme for 1917.

"Plans are now in the making to secure a community arrangement for board and lodging for those who desire it, at a cost of $1.50 per day or less.

"It is hoped to have next year a Conference of Associational Moderators and chairmen of executive committees to discuss Associational work.

"You may be sure of one thing—the Assembly is Baptist to the core.

"L. R. Varser, Carey J. Hunter, and Lee McB. White are the finance committee for next year. They are planning to have the money side all fixed and a budget made that will make safe a thousand dollar expenditure for 1917.

"Dr. McGlothlin is a great golf player, and went almost daily to the links near Wrightsville, but he and Prof. Leavell and Rev. J. S. Snyder and some others—eight in all, disclaim any ability to catch fish in combination in those waters. This writer overheard them talking about a total of sixteen hours of work, six dollars in good money, and one eight-inch fish as a result. But it is not always thus.

"The Tidewater Power Company does well to promote gatherings like the Seaside Assembly. Our gathering is just the beginning.

"The Assembly is doing constructive work—not work of the skyrocket or soda-water variety—but high class, fundamental training. We shall reap in better ideals a great harvest through the years.

"Stick a pin here .Begin now to plan to attend the 1917 Assembly. Get the habit!"

REV. J. A. CLARK CALLED TO PASTORATE AT HIGH POINT.

Has Not Announced Whether He Will Leave Winter Park.

Rev. J. A. Clark, pastor of Winter Park Baptist church, has made no announcement yet as to whether or not he will accept the call tendered him by the First Baptist church of High Point last Sunday. It had been expected that he would make some announcement in the matter at the mid-week meeting of the Winter Park church last night, but he did not. It is expected that he will announce his intentions to his congregation Sunday.

Rev. Mr. Clark was advised by telegraph Monday and by letter later that the First church at High Point had on Sunday voted him an enthusiastic and unanimous call, which was extended upon unanimous recommendation of the pulpit committee which had for 60 days been casting about for a suitable man for the place made vacant by resignation several months ago. Mr. Clark preached in the High Point church last Sunday a week ago, and according to reports from there he made a most favorable impression upon the congregation.

While Mr. Clark has not announced his intention in the matter, it is believed here that he will accept the call that has come from such an inviting field, though it is known that his people here, whom he has been serving since last December, are very loath to give him up.

ECLIPSE OF THE MOON.

Will be Almost Completely Covered by Shadow—Interesting Event.

An eclipse of the moon is scheduled for tonight as one of the events that will no doubt attract considerable attention in these parts, not only among those of scientific inclinations but others as well. It will not be a total eclipse, but the moon will be 80 per cent covered by the shadow of the earth. The night luminary will pass into the earth's shadow at 9:18 and will reach its climax at 11:46. The shadow will pass off at 1:12 o'clock.

Southport Well Represented.

Taking into consideration its size and distance from Chapel Hill, says the Summer School Weekly of the University of North Carolina, no town in North Carolina is better represented at the Summer School this summer than is Southport, the seaport county seat town of Brunswick. There are present 12 people from Southport, and three others from Brunswick, making a total representation of 15 from that county.

TO HAVE THE BIGGEST CELEBRATION YET HELD

At Moore's Creek Battleground In Pender County

Hon. J. D. Murphy, of Asheville, to Be Orator at Anniversary Exercises —Mr. G. J. Moore in Charge of Arrangements.

The biggest celebration yet held at the Moore's Creek battlefield in observance of the anniversary of the famous battle fought there, is promised for Thursday, August 3, according to Mr. George J. Moore, president of the battleground association, who spent yesterday in Wilmington. Mr. Moore came to the city for the purpose of purchasing culverts and other material to be used in improving the highway from Currie to the battleground, a distance of one-fourth mile.

Mr .Moore states that a force of hands will be at work on the road next week in the construction of an improved sand-clay road that will make it most pleasant for those going to the celebration. The highway will be 40 feet in width and will be thoroughly drained.

Mr. Moore is enthusiastic over the plans for the celebration this year. These occasions annually attract thousands of people from all sections of Eastern North Carolina. Mr. Moore while in the city attended a meeting of the Chamber of Commerce and extended an invitation to the members to attend the anniversary exercises. The members of the battleground association, he stated, extend a cordial invitation to all to come and enjoy the day. Good order will be observed and no drinking will be allowed. There will be an excellent brass band present throughout the day to render selections. The Atlantic Coast Line has authorized low rates from Sanford and Wilmington and intermediate points to Currie.

An excellent programme has been arranged by President Moore and Secretary C. D. Murphy. Hon. J. D. Murphy, a native of Eastern North Carolina, who has achieved great success as a lawyer in Asheville, has accepted an invitation to deliver the annual address. The exercises will be opened with prayer by Rev. E. B. Carr followed by the address of welcome and the annual address.

After the exercises there will be a dinner served in the grove. All who attend will be asked to bring a lunch. Mr. Moore states that a special invitation is extended to all Confederate Veterans to attend.

SUB-COMMITTEE IS NAMED

To Make Investigation of Future Policy of Tidewater Power Co.—Statement by Chairman Noe.

In accordance with the action of the Committee of One Hundred, appointed to pass upon the past and future policy of the Tidewater Power Company, at a meeting held Wednesday morning, a sub-committee of ten men has been named to make an investigation of the future plans of the Tidewater and report to the committee at a subsequent meeting. The sub-committee was appointed by Archdeacon Thos. P. Noe, chairman of the Committee of One Hundred and ex-officio member of the sub-committee. The sub-committee will meet today at noon in the rooms of the Chamber of Commerce.

The members of this committee were announced yesterday. They are Messrs. D. L. Gore, W. H. Sprunt, W. A. Furlong, Roger Moore, J. Allan Taylor, Woodus Kellum, John R. Hanby, H. C. Bear and John H. Rehder. Chairman Noe in announcing the committee made the following statement:

"At the special meeting of One Hundred held in the Chamber of Commerce on Wednesday morning, to hear Mr. Hugh MacRae state his policies past and future, a motion was passed, requesting the chairman to appoint a sub-committee of nine, with himself as a member ex-officio, and in naming the committee, which is given below, with a view to representing fairly the committee present Wednesday morning, I desire to make the following statement:

"As stated in the meeting Wednesday and reported in the local press, the committee of One Hundred, selected by the Citizens' committee at the request of Mr. MacRae, was chosen with a clear purpose of making it representative of the community; and no word of criticism has reached me, to indicate that we did not accomplish this purpose, as fully as such a thing can be done, when one is dealing with a whole community and has only one's judgment to guide him, with his necessarily imperfect knowledge.

"After a statement made by me as chairman of the Citizens' Committee and a very full statement by Mr. MacRae, giving information that the general public had not heard before, the Committee of One Hundred, without a single negative vote, endorsed what had been done by the Citizens' Committee and also passed resolutions unanimously approving the principle of Mr. MacRae's action and his outlined future policies.

"Proceeding upon the facts above stated and believing, in the absence of anything to the contrary, that we are suported by an enlightened loyal public sentiment, and that the situation justifies us in assuming that we reflect public opinion, the sub-committee herewith named will consider all matters laid before them and that they may ascertain in regard to the company's future policy; and in the spirit of Wednesday's approval will make their report and recommendation to the Committee of One Hundred for its final adoption.

"I feel constrained to congratulate the community on the amicable adjustment reached through mutual concessions, which is the righteous ground on which differences can be and should be composed; and to commend the spirit of both parties in reaching a fair settlement of a matter in which the community was so deeply and vitally concerned. "THOMAS P NOE,

"Chairman."

CARD OF THANKS.

We take this means of expressing our thanks to the many friends who were so kind to us during the illness and death of our loved husband and father, Josiah Cumber.

Mrs. JOSIAH CUMBER,
and DAUGHTER.

HOW IT LOOKED TO MILITIA

Visitors to Wilmington Carry Favorable Reports Back to Their Homes —Comments of Papers.

Favorable reports of their treatment in Wilmington were carried back to their homes by the members of the four visiting militia companies to Wilmington, according to the comments of the papers. The embryo soldiers are quoted as being loud in their praises of the cordial attitude and the many courtesies extended to them by the citizens here.

Speaking of the return of the Raleigh company, yesterday's News and Observer says:

"Having encountered no disorder or resistence of any kind and having been treated courteously and considerably while away, the first company of the coast artillery, Captain W. Drummond Marrow commanding, returned yesterday from Wilmington, where they were called to quell any disturbance that might have arisen from the street car strike in that city.

"The officers and members of the company were loud in their praises of the cordial attitude and the many courtesies extended them by the citizens of Wilmington. No resentment at the presence of troops was shown. Instead the people did everything in their power to make their stay an agreeable one.

"Captain Marrow said that there was no threatening attitude on the part of the strikers toward the citizens of the town or the troops. Neither was there any talk or whispering that any violence was threatened. He said, however, that had there been any disturbance the force was amply sufficient to cope with it, since it was fully armed and prepared.

"During their stay in Wilmington, the troops went to Wrightsville twice at the invitation of the Tidewater Power Company, which extended every courtesy, and upon the night of their departure a watermelon feast was enjoyed and highly appreciated. The melons were given to the regiments by Mr. H. E. Bonitz, architect of Wilmington, and by the chairman of the committee representing the owner of the quarters which were occupied by the troops.

"Five companies, including the Wilmington infantry, were quartered in the Chapman and Alexander Tabernacle, a structure amply large for comfortable sleeping. Regular field service was instituted immediately upon arrival of the troops. Regular field no sickness, injuries, or disorder among the troops. The company from Raleigh numbered 70 men, commanded by Capt. W. D. Marrow, First Lieutenant J. W. Harrelson and Second Lieutenant Godfrey Cheshire."

Of the return of the Greensboro company, yesterday's News, of that city, says:

"The Guilford Grays returned to Greensboro yesterday morning from Wilmington, where they had been part of the coast artillery guard of the city during the final days of the strike of employes of the electric car company in Wilmington. The corps called out, consisting of the companies of the artillery of Charlotte, Salisbury, Greensboro and Raleigh, reinforcing the company of Wilmington, was under the command of Major E. D. Kuykendall, of Greensboro. The other companies which were from the piedmont section returned on the special train which bore the Grays home.

"The report of members of the company was of a trip unmarred with any incident of untoward nature. The company from here reached Wilmington and was cordially welcomed by prominent citizens, in the interest of law and order. The soldiers were given as barracks a large building on the outskirts of the city and were kept constantly on duty, without permission for trips uptown or anywhere about Wilmington except in the pursuit of their duties. There was no time for skylarking and nothing of this kind was allowed. There were two short periods of swimming in the surf for the soldiers and other than this their stay in the city was devoid of entertaining features.

"There was some inclination on the part of members of the local company to question the attitude assumed by papers in the State on the need of such a gathering of soldiers in Wilmington because of the strike of a handful of men. It had been stated by some newspapers that the call for the militia was a spectacular action on the part of the Governor, inspired by certain other officials, which was not justified by any means by the facts in the case. This was the attitude which was objected to by certain of the soldiers, who were made to believe their evidence of what they witnessed and that which was told them that there was a serious crisis threatened in Wilmington, not merely by the employes of the street car company on strike, but by hundreds of the people who 'are looking for an excuse for being disorderly.' It was stated that the city streets were filled with an excitable gathering of people interested in the test of strength of employer and employe and that in the crowd was much disorder which was hourly becoming more menacing.

"It was even stated here yesterday that the mass meeting reported to have been held in Washington of prominent citizens, was hardly such a meeting, very few prominent citizens taking any interest in it or being in sympathy with its action, according to the reports given the soldiers by people of Wilmington."

Yesterday's Charlotte Observer says of the return of the company to that city:

"The Fifth Company, Coast Artillery Corps, 48 in number, exclusive of the three officers, returned from Wilmington yesterday morning on a special train after having spent five days on guard duty there. All of the men were feeling hale and hearty and expressed themselves as having enjoyed their trip immensely. They said that the Wilmington people treated them royally, and that aside from a lack of sleep, they fared magnificently. Capt. W. R. Cox was in command."

Treasurer's Report for June.

The report of the treasurer of Associated Charities of New Hanover county for the past month shows receipts and disbursements as follows: Receipts —New Hanover county, $200; John S. McEachern Sons, $5; F. E. Hashagen Co., $5; Capt. Walter G. MacRae, $20; Mrs. Alice Everitt, $1; In Memoriam, $1; The Worth Company, $5; A. J. Behrends, $10; H. W. RETURNS TO REGIMENT

Col. Metts Spends Short While at Home Away From Military Duties.

Lieut. Col. John VanB. Metts, of the Second North Carolina regiment of infantry, now encamped at Camp Glenn at Morehead City, returned to his duties yesterday after spending Wednesday in Wilmington attending to business matters and visiting his family.

Colonel Metts stated that the three regiments now at Camp Glenn are rapidly getting into shape and are eager for service on the Mexican border. They are daily drilled and gotten into shape for service. There are several Wilmington men with the regiments at Camp Glenn and they are getting much enjoyment out of their military duties.

LEFT HOME SUDDENLY

Mr. John Capps Didn't Tell Wife Where He Was Going Saturday.

Mr. John Capps, who lives at Wrightsville, left home suddenly Saturday afternoon, according to reports made to officers of the county yesterday, and hasn't been heard from since. His wife thought little of the matter at the time but when he failed to return, she became uneasy and a quiet search was begun to find out his whereabouts. However, it was reported yesterday that all efforts had proven of no avail and it was feared that he might have happened to some ill fortune. Every effort was being made last night to locate the young man.

Friday Morning Sale

98c

Ever anxious to make Friday Morning a busy morning and wishing to give you Exceptional Values in These Sales, to warrant your attendance, We Offer for This Friday Morning the List Below. Every Article is a Real Bargain and Some of Them are Even better Than Listed. Be here Friday right after breakfast and reap the Benefit of these Savings:

Bates, a graduate of the New England Conservatory of Music, who has studied under several other well known teachers, will have the department of voice culture and chorus singing. Miss Alvera C. Gustafson, of Florence, Mass., will teach piano. She is a graduate of the New England Conservatory and has studied under several artists. Miss Meredith Clark, of Central College, Ark., will teach expression and physical culture.

• • •

CHORAL CONCERT DELIGHTS AUDIENCE AT UNIVERSITY

Chapel Hill, N. C., July 13.—The chora concert given here last night under the direction of Prof. Gustav Hagedorn, of Raleigh, was a success in every way. The chorus numbers were in some cases very difficult, but they were rendered with great ease and vigor, and the soloists, Miss Dicie H. Howell and Mr. Preston Epps, never sang to better advantage. A large crowd assembled in Memorial hall to hear the music, and warmly applauded many of the numbers. Both soloists received an ovation.

The programme was made up of four choral numbers, two groups of songs by Miss Howell, and an aria by Mr. Epps. "Liberty," a dramatic scene founded on Macaulay's poem, Virginia, by Fanning, was the first number on the programme, and the difficult part singing in this was done in a most praiseworthy manner. In Grieg's "Olaf Trygvason" the chorus also appeared to good advantage. A chorus for men, from Verdi's opera, "Ernani," was accorded most liberal applause. The chief number on the programme was a cantata, "Fair Ellen," by Max Bruch. The story is concerned with the relief of Lucknow by the highland troops, and all through the piece may be heard the stirring strains of the "Campbells are Coming." The soprano and baritone solo parts in this were brilliantly rendered by Miss Howell and Mr. Epps. Altogether, there were about 50 voices in the chorus.

PERSONAL PARAGRAPHS

—Among the North Carolina arrivals at the Hotel Wilmington yesterday were Mark W. Williams, Charlotte; Harry G. Patterson, New Bern; C. D. Thomson, Hamlet; M. C. Sullivan, Charlotte; L. DeLuca, Bowden; T. E. Lindsay, Durham.

—Among the arrivals at the Imperial hotel yesterday were: J. M. Smith, Hamlet; A. McDougal, Hamlet; J. A. Ziblin, Wallace; E. N. Vinson, Rocky Mount; Miss Lillian Byrd, Asheville; W. E. Lucas, Durham; G. D. Terrell, Wallace; J. A. Dew, Currie; J. W. Blake, Wananish.

—Mr. Robert Seigler, of Chicago, Ill., an Associated Press operator on one of the large papers in that city, is at home on a short vacation which he is spending with his sister, Mrs. George Keene on Dock street. He came to Wilmington from Baltimore, Md., where he was called to be with his father, who is being treated in the Johns Hopkins hospital.

LOCAL DOTS

—The committee on arrangements for the outing of the employes of the street department of Wilmington, is composed of Superintendent John J. Furlong, Assistant Superintendent Jas. E. Holton and Messrs. James Rackley, J. Williams ad Walter Baker.

NEW AGENTS IN CHARGE OF SUNSET PARK DEVELOPMENT.

Mr. J. Haughton James Elected Secretary of the Fidelity Company.

Announcement was made yesterday that Mr. D. R. Foster, who has been secretary and treasurer of the Fidelity Trust & Development Company for some time, has resigned from this position on account of the fact that he was interested in several other development propositions and could not, therefore, give any considerable part of his time to the Sunset Park proposition, which is under the control of the Fidelity Company.

The directors of the company have been fortunate in securing Mr. J. Haughton James as successor to Mr. Foster. With his election to this position, the offices of the Fidelity Trust & Development Co., have been removed to the office of James & James, Inc., corner Front and Chestnut streets. This firm will have entire charge of the sales department of the Fidelity Company in the future. Mr. C. C. Chadbourn, of this city, is president of the company, and Mr. J. P. Council, of Wananish, is vice president. The board of directors remains the same.

The Sunset Park development in the southern part of the city is one of the most important in this section and has grown very rapidly since the property was put on the market a few years ago. There are already about 40 residences on the grounds, most of them being occupied, and plans are under way for the erection of a number of others. It is announced that the Fidelity Company is negotiating with the Tidewater Power Company for the extension of the gas mains to Sunset Park and the hope is expressed that this will be done within the next several months. Plans are being made for assisting persons of small means in building homes in this attractive suburb.

Children teething often suffer from Cholera Infantum, Diarrhoea or some form of Bowel Complaint. Dr. SETH ARNOLD'S BALSAM is the best remedy, Warranted by Elvington's Pharmacy.

—THE—
CANDY OF EXCELLENCE.
5 N. FRONT STREET

Wrightsville Beach

Mr. and Mrs. P. S. Kornegay and child and Miss Kornegay, of Lumberton, are guests at the Paris cottage.

Mr. R. L. Swain and mother, Mrs. E L. Swain, and Mrs. J. M. Thomas and Miss Louise Walker, of Danville, Va., are among the recent arrivals at the Paris cottage.

Yesterday's Charlotte Observer: "Mrs. Harvey W. Moore and children, Lucy and Harvey W., Jr., have returned home after a three weeks' stay in Wilmington and at Wrightsville Beach."

Yesterday's Fayetteville Observer: "Col. John M. McFall has returned from a short stay at Wrightsville Beach.——Mr. Charles Marsh has returned from the Beach, but Mrs. Marsh and Miss Carolina will remain a while longer."

Miss Wedge, director of musi cat Limestone College, Gaffney, S. C., sang several solo selections for the entertainment of the guests in the lobby of the Seashore hotel Wednesday morning, which were very much appreciated by her audience.

For the protection of women and children, the bath houses at the Seashore and Oceanic hotels and Lumina were closed yesterday on account of the heavy sea piled up by a stiff northest gale. Many bathers from the cottages went in the surf, but did not venture far from shore.

Among the arrivals at the Seashore hotel yesterday were O. W. Monroe, Greensboro; J. F. Prather, Mt. Airy; J. M. Council, Wananish; A. R. Harrel, Atlanta; G. B. Jones, Ridgeway, Va.; Mrs. J. R. McWane, Birmingham; Miss Martha McCartney, Hinton, Va.; Mrs. W. J. Adams and Mrs. W. T. Jones, Carthage; W. R. O'Hara and E. C. Griffith, Charlotte; Miss Dewey Chambers, Charlotte; Miss Clara Williams and Pearson Berry, Milledgeville, Ga.

Among yesterday's arrivals at the Oceanic Hotel were Oscar R. Rudisill, Greenwood, S. C.; Mrs. C. Elmer Weber, Charlotte; Miss Bessie Alderman, Greensboro; Miss Placide Clark, Tarboro; Miss Sarah Erwin, Durham; B. G. Jordan, Macon, Ga.; W. B. Jones, Conway, S. C.; William Pflueger, Covington, Ky.; Sam Clark, Tarboro; George T. Winston, Graham, and Messrs. J. B. Journey, J. W. Harrelson and F. C. Manning, Raleigh.

Efforts to salvage Mr. Tom Norris' 30-foot launch which was wrecked Wednesday morning near the inlet to Banks Channel by the use of pontoons were made yesterday but proved futile. The launch is sunk in water about ten feet deep about 100 yards off the point of Wrightsville Beach. An attempt was also made to move her by attaching tow lines to four other gasoline boats, but the sunken boat was so loggy with sand that she couldn't be budged.

The executive committee of Cooleemee cottage, which is maintained by the Y. W. C. A. of Wilmington, is very much pleased with the success of the undertaking this year. Reports made at a meeting last night showed that since the opening of the cottage in June there have been 157 visitors, 479 meals have been served, 87 persons have secured lodging, 23 swimming lessons have been given and 141 members have been enrolled. Thirty persons have been referred to other cottages. The total receipts so far have ben $192.12 and the total disbursement shave been 163.80, leaving a balance of $29.32.

Yesterday's Charlotte Observer: "Miss Catherine Gilmer has returned home from Wrightsville Beach, where she attended a house party given by Miss Sue Northrop. Miss Northrop is the attractive daughter of Mrs Robert Northrop, of Wilmington She and Miss Gilmer were classmates last year at St. Mary's College at Raleigh. Mr and Mrs Northrop have a summer home on the beach. The guests at the house party included Miss Catherine Gilmer, of Charlotte; Miss Josephine Daniels, of Chapel Hill; Miss Agnes Cotton Timberlake, of Raleigh; Miss Mamie Holt, of Fayetteville, and Miss Mary Treadwell, of Norfolk, Va.——Miss Faye Peirce is spending several weeks with friends at Wrightsville Beach.——Miss Margaret DeWoody, of Pine Bluff, Ark., who has been visiting Misses Lila and Fan Little, at their home in Myers Park, returned to Rockingham Wednesday afternoon to join Miss Cora Stansill for a stay at Wrightsville Beach.——Mr. and Mrs. William J. Brown will leave shortly for a stay at Wrightsville Beach.——Masters Douglas and William Schiltz and little Miss Catherine Schiltz, accompanied by a maid, will leave today for Wrightsville Beach to spend several weeks.——Miss Bleeker Ritch, Miss Minnie Reid, Miss Grace Hatcher, George W. King and W. L. Davidson, Jr., have returned home after a five-day stay at Wrightsville Beach."

A Clear Skin is only a part of beauty; but it is a part. Every lady may have it, and easily, too. Just apply Hagan's MAGNOLIA BALM (Liquid Powder) It freshens and beautifies at once. Heals Sunburn and overcomes Tan. 75 cents at Druggists or by mail. Sample Free. Lyon Manufact'ng Co., 42 South Fifth Street, Brooklyn, N. Y.

For All Complexion Ills

If the skin be colorless, sallow, muddy, over-red, blotchy or freckled, nothing will so surely overcome the condition as ordinary mercolized wax. It literally takes off a bad complexion—absorbs the dead and near-dead particles of surface skin, gently, gradually, causing no inconvenience at all. A new complexion is then in evidence, clear, spotless, delicately soft and beautiful. One ounce of this wax, procurable at any drug store, will rejuvenate even the worst complexion. It is used like cold cream.

SEPA GROTTO, NO. 79, M. O. V. P. E. R.

Called session this (Friday) evening at 8 o'clock, Masonic Temple. Installation of officers by Grand Captain of the Guard, E. Craig Pelouze, of Richmond, Va. Also consideration of any business properly to be presented. All Prophets cordially welcomed. You must wear your fez and present receipt card to be admitted.

By order of the Monarch.

A. S. HOLDEN, Secretary.

HAD STRONG WIND AT BEACH

Storm Warnings Sent Out from Washington Cause Wrightsville Residents to be Apprehensive.

Storm warnings sent out from Washington last night for all points on the coast between Jacksonville and Fort Monroe combined with the strong northeast wind in this section caused considerable uneasiness in the summer colony at Wrightsville Beach and several families thought it wise to spend the night in the city. However, those in close touch with the situation felt little apprehension of danger, especially as the hurricane warnings of the Weather Bureau only included points between Tybee Island in Georgia, and Georgetown, S. C.

The bulletin issued from Washington last night stated that a disturbance of considerable intensity from the South Atlantic was near the South Carolina coast, with a maximum wind velocity of 64 miles an hour from the northeast near Charleston. The tropical disturbance noted Wednesday morning was still beyond description, said the bulletin, late afternoon reports indicating that it was then near or over the Mona Passage, between Porto Rico and San Domingo.

Additional storm warnings were ordered displayed at 10 o'clock last night from Cape Hatteras to Fort Monroe.

The fact that it was low tide last night served to allay the fears of those living at the beach. The high tide is due this morning about 6 o'clock but it was thought that even should a high wind develop last night that it would in all probability quiet down by morning.

Beach residents, however, kept in close touch with the weather bureau. They believe implicitly in the weather bulletins, feeling quite sure that if any wind of consequence was due to approach this section, they would receive timely notice. Reports from the beach at midnight stated that while the wind was blowing with considerable intensity that no fears were felt for safety.

The wind in Wilmington was blowing only enough to relieve to some extent the rather unusual humidity of the last two days and was gladly welcomed by those who felt the need of a refreshing breeze in order to sleep better.

FUNERAL OF MR. CUMBER.

Services Held Yesterday Afternoon from Residence—Interment.

The funeral of Mr. Josiah Cumber, whose death occurred Wednesday morning, was held yesterday afternoon at 3:30 o'clock at the residence of Mrs. W. M. Goodwin, No. 1009 North Fourth street, the services being conducted by Rev. George F. Hill, assistant rector of St. James' Episcopal church, assisted by Rev. J. P. King, pastor of Sixth Street Advent Christian church.

There was a large attendance of sorrowing friends and relatives and many floral tributes were on display. Interment was in Oakdale cemetery.

The pall-bearers were: Honorary, Messrs. Edwin Bunting, Graham Alderman, E. J. Grimsley and Greene Fenley; active, Messrs. J. B. Gooding, J. F. Sellars, J. W. Kerr, W. N. Smith, W. G. Craig and R. M. Murray.

COTTON IS LITTLE CHANGED

Moderate Early Advance Followed by Easier Turn and Market Closes 1 Point Up to 2 Points Down.

New York, July 13.—A moderate early advance was followed by an easier turn in the cotton market during today's late trading, with October selling off from 12.98 and 12.89 and closing at 12.91. The general list closed steady at an advance of one point to a decline of two points.

The market opened steady at an advance of four to five points and after some little irregularity, sold about 6 to 7 points net higher during the middle of the day. Offerings were restricted by uncertainty as to the probably course of the storm reported in the Carribbean sea and the bulk of the support seemed to come from covering by shorts. Offerings increased slightly around 13.15 for December and 13.20 for January, and the market turned easier during the afternoon under scattering liquidation which seemed to come largely from Wall Street sources. December eased off to 13.05 while January sold bac kto 13.11 with active months generally working 2 to 4 points under last night's closing figures. Closing prices were within a point or two of the lowest in most instances.

	Open.	High.	Low.	Close.
Aug.	12.83	12.82	12.77	
Oct. 12.98	12.98	12.89	12.91

LIVERPOOL COTTON MARKET.

Liverpool, July 13. — Closing cotton: Spot, quiet; prices easier. Good middling, 8.17; middling, 8.01; low middling, 7.85. Sales, 6,000 bales, including 5,400 American. Receipts, 1,000 bales. Futures closed steady. July, 7.87½; July-August, 7.87; August-September, 7.82; September-October, 7.79¼; October-November, 7.76; November-December, 7.73½; December-January, 7.70½; January-February, 7.69; February-March, 7.68½; March-April, 7.68; April-May, 7.67; May-June, 7.66½; June-July, 7.65.

COTTON SEED OIL MARKET.

New York, July 13. — Business in cotton seed oil market was much quieter today, but it remained steady, in absence of any selling pressure. Outside interest was light, partly due to the dullness in lard and very little export business was reported. Final prices were one point lower to five higher. Sales, 7,800 barrels.

Close, firm. Spot, 10.70 bid; July, 10.75@10.76; August, 10.54@10.58; September, 10.42@10.44; October, 9.56@9.57; November, 8.72@8.73; December, 8.63@8.64; January, 8.64@8.66; February, 8.67@8.73. Total sales, 7,800.

CHICAGO LIVE STOCK.

Chicago, July 13. — Hogs—Weak. Bulk, 9.70@10.10; light, 9.50@10.05; mixed, 9.65@10.20; heavy, 9.45@10.20; rough, 9.45@9.60; pigs, 8.15@9.65.

Cattle—Steady. Native beef cattle, 7.10@11.00; western steers, 8.10@9.25; stockers and feeders, 5.40@8.40; cows and heifers, 3.50@9.60; calves, 8.50@12.00.

Sheep—Unsettled. Wethers, 6.75@8.00; ewes, 3.25@7.50; lambs, 7.25@10.55.

NEW ORLEANS COTTON.

After Early Advance Market Closes Steady at a Net Decline.

New Orleans, July 13.—After a small advance in the morning session today the cotton market fell off but closed steady at a net decline of 2 to 5 points, last prices being the lowest. Little business was done.

Cables were higher than expected at the opening, but no great pressure to buy was created. Active months were 2 to 6 points up in the early trading and 4 to 6 up later in the morning. Continued rains in the Eastern belt and the warning that a tropical storm was moving in the general direction of the Gulf of Mexico, were the sustaining influences. The rise in the Bank of England rate and reports that a private crop reporting bureau was coming out with a bearish semi-monthly report on condition restricted late trading. Reports of boll weevil and damage from excessive rains in the sections hit by the recent hurricane gave the market a steady undertone.

Closing bid: August 12.64; October 12.71; December 12.86; January 12.94; March 13.15.

Spot cotton steady and unchanged; sales on the spot 930 bales; to arrive 125 bales; middling 13.00.

FRESH GAINS FOR WHEAT

Reports of Broadening European Demand—Prices, Although Unsettled at Close, Are Net Higher.

Chicago, July 13. — Wheat scored fresh gains in value today, owing largely to reports of a broadening European demand. The market, although unsettled at the close, was ⅛ to ⅝c. net higher, with July at 1.10⅛ and September at 1.11¾@⅞. In corn, the outcome was ¼@? to ⅝c. up; oats were down a shade to ¼@⅜, and provisions unchanged to 7½ lower. Closing:

Wheat — July, 1.10⅛; September, 1.11¾.

Corn—July, 78¼; September, 74½.

Oats—July, 40⅞; September, 40⅝.

Pork—July, 25.60; September, 24.70.

Lard—July, 13.30; September, 13.40.

Ribs—July, 13.40; September, 13.52.

Cash grain:

Wheat—No. 2, red, and No. 3, red, nominal; No. 2, hard, 1.11@1.11½; No. 3 hard, 1.09@1.10.

Corn—No. 2, yellow, 79¾@80¼; No. 4, yellow, 76½@79; No. 4, white, 76@78½.

FAVORITE STOCKS DEPRESSED

Broad and Promiscuous Selling Causes Drop to Lowest Prices of Year. Motors Disturbed.

New York, July 13.—Selling of a broad and promiscuous character today depressed prices of erstwhile favorites to the lowest points of the year and for a time caused unsettlement in standard shares.

Trading was on a large scale and wholly at the expense of values except in the last hour when short covering brought about moderate recoveries. The motor group was the chief center of disturbance, those issues recording extreme declines of 4 to 7 points, with 11 for General Motors while stocks of accessories declined 2 to 4 points.

United States Industrial Alcohol struck the new low level of 97, a maximum loss of 32 points since last Saturday, but closed at 103. American Beet Sugar yielded 4 1-4 points under heavy pressure. Reports of loss or cancellation of foreign contracts caused recessions of 3 to 5 points in munitions such as Crucible Steel, New York Air Brake, American and Baldwin Locomotives, Westinghouse and Continental Can, while Bethlehem Steel at one time registered a decline of 23 points at 419 7-8, but closed at 434 1-2. United States Steel lost only a substantial fraction, notwithstanding its large turnover.

Among rails, Reading, Canadian Pacific, St. Paul, Great Northern and Norfolk & Western were lower by 1 to 1 1-2 points with the same for shipping issues. Coppers were only moderately affected, but Mexicans, particularly Petroleum, showed little resistance.

The feature of the day's news was the advance in the Bank of England rate to 6 per cent, the first rise since August 8, 1914, when the discount was reduced to 5 per cent. The change was accompanied by the weekly statement, disclosing a further gold contraction of $4,600,000.

Bonds were heavy. Total sales, par value $2,990,000. United States bonds unchanged on call.

DRY GOODS MARKET.

New York, July 13.—Cotton goods were steady today. Duck and yarns were firm. Raw silk was active and higher. Government requirements for heavy weight men's wear strengthened the market.

NEW YORK LIVE STOCK.

New York, July 13. — Beeves—No trading. Calves, steady. Veals, 9.50@13.25; culls, 8.00@9.00.

Sheep and Lambs—Steady. Sheep, 4.50@7.00; culls, 4.00; lambs, 10.50@11.75.

Hogs—Firm. Light to heavy, 10.25@10.05; roughs, 8.75@8.80.

POWERFUL SEARCHLIGHTS TO DETECT MEXICANS' ACTIVITY

Placed on Hill Tops and Other Vantage Points Along Border.

Eagle Pass, Texas, July 13.—Military authorities today placed powerful searchlights on hill tops and other vantage points near the Mexican border here. These will make it practically impossible for any military activity to be constructed near the border under cover of darkness.

A trainload of 54 motor trucks were received at the military encampment today.

New York, July 13.—Reuben Oldring, former star leftfielder of the Philadelphia Americans, who announced his retirement from baseball on July 1, signed a contract here today to play with the New York Americans. Oldring will play his first game here next Saturday.

MILLIONS TO BE INVESTED IN SOUTHERN DEVELOPMENT

26,000 Horse-Power Hydro-Electric Development in Carolina.

Baltimore, July 13.—Among the numerous varied Southern industrial announcements of the past week were important contracts requiring an investment of millions of dollars. Increasing activity is noticeable in every avenue of endeavor, and efforts are being made to keep pace wtih the demand for manufactured and other products. New and enlarging enterprises are making public details of their plans, calling for the construction of buildings and machinery for plants which will provide employment for many men and women.

This week's Manufacturers Record presents detailed statements of all the essential features of the new and enlarging plants. It includes a $1,500,000 zinc smelting and manufacturing plant at Moundsville, W. Va.; a $1,000,000 glass bottle and fiber manufacturing plant at Clarksburg, W. Va.; a $1,000,000 drainage system to reclaim 286,000 acres of land in Arkansas; a 26,000 horse-power hydro-electric development in North Carolina; a 40,000 horse-power hydro-electric plant in Texas, and a $450,000 Portland cement manufacturing plant in Tennessee.

The many reports of the week include:

Western Carolina Power Co., subsidiary of Southern Power Co., Charlotte, N. C., has plans and specifications for sixth hydro-electric development on Catawba river; this plant will be located 10 miles above Morganton, N. C., and will generate 26,000 horse-power for transmission by electricity; completion of this plant will increase the Southern Power Co.'s total Catawba river development to 170,000 electrical horse-power.

Haynes Mills, Avondale, N. C., incorporated with $300,000 capital for manufacturing cotton cloth.

Pilot Hosiery Mills Co., Durham, N. C., incorporated with $100,000 capital to build mill for knitting and dyeing hosiery.

Cinco Syrups & Fountain Co., Greenville, S. C., incorporated with $100,000 capital to manufacture soda fountain syrups.

Liggett & Myers Tobacco Co., Durham, N. C., awarded contract for 295x114-foot fireproof factory addition costing $100,000.

James N. Williamson & Sons Company, Burlington, N. C., awarded contracts for additional buildings and machinery, including 5,000 spindles, all to cost about $100,000.

PERENNIAL FISH QUESTION IN THE NEXT LEGISLATURE.

Ocracoke Fishermen Reported Bitter Against Present Law.

(Special Star Correspondence.)

Washington, N. C., July 13.—"I have never seen a whole community so opposed and hostile to any law, as are the people of Ocracoke Island to the present fish law," says Lindsay C. Warren, of this city, one of the Democratic nominees from this district for the next State Senate, who returned from Ocracoke a day or two ago.

Mr. Warren says he talked to a large number of fishermen on the island, and that all of them are "very bitter against the law that works such a decided hardship on them." He states that while the fish law has hurt the majority party, the people, who have been almost solid in the Democratic faith, are still looking to that party to remedy this "injurious condition in the next General Assembly," and that he believes it will be one of the big questions in the next Legislature.

He studied the fish question while at Ocracoke, Mr. Warren says, and made quite an investigation of conditions, and he has yet to hear a single man on the island say that he is in favor of the present statute.

INJURED BY A FALL, FAISON WOMAN HAS PASSED AWAY.

Mrs. Willie Thompson Dies at Age of About Sixty—Funeral.

(Special Star Correspondence.)

Warsaw, N. C., July 13.—Mrs. Willie Thompson, aged about 60, died at her home in Faison early Wednesday morning from the effects of a fall received a short time ago. She was a member of the Episcopal church from which the funeral services were conducted Wednesday afternoon at half past five o'clock, by Rev. C. L. Shewell, of Clinton. Mrs. Thompson was a woman of a cultured mind, and generous disposition. She was extremely fond of flowers, and known far and near for the skill with which she grew them. She had a flower pot in her hands when she received the fall which with complications, caused her death. The deceased is survived by her husband, and the following children: Mrs. David Sessoms, of Ivanhoe; Miss Augusta Thompson, of Faison; Mr. Curtis Thompson, of Petersburg; Faison Thompson, Esq., of Goldsboro, and a large number of more distant relatives.

TOM MERRICK GRANTED FOUR WEEKS REPRIEVE

To Afford Time to Consider Application for Commutation.

A. H. Yearby, of Insurance Department, is Dead—Governor's Executive Clerk Resigns for Better Position—Charters.

(Special Star Correspondence.)

Raleigh, N. C., July 13.—Governor Craig granted a reprieve today for Tom Merrick, a New Hanover county negro, who was under sentence to die in the electric chair tomorrow for murder. The reprieve is for four weeks and is in order that there may be time to consider application for commutation.

The Governor has ordered an examination of Melvin Horne, young white man of New Hanover, under sentence to die for murder, as to his sanity, the examination to be made by Dr. John McCampbell, of Morganton; Dr. Albert Anderson, of Raleigh, and Dr. W. W. Faison, of Goldsboro. The examination is to be made next Tuesday. Horne killed his brother-in-law because of business disagreement.

Two new corporations were chartered today as follows:

The Clinton Grocery Co., of Clinton, Sampson county, capital $20,000 authorized and $1,600 subscribed by R. B. Herring and others.

The Continental Securities Co., of Charlotte ,capital $20,000 authorized and $3,000 subscribed by G. M. Hubbard, W. A. Evert and H. L. Taylor.

J. J. Mackey, Jr., who has been executive clerk in the offices of Governor Craig for nearly three years, has resigned that position to accept an attractive offer from the Remington Typewriter Co., to serve as a traveling salesman in the Eastern Carolina district. He will be succeeded in the Governor's office by Miss Mamie Turner, who has held a position for quite a while in the Department of State as a stenographer.

A. H. Yearby, for 13 years in the service of the State Department of Insurance, died this morning at his home in West Raleigh after an illness of several months. He began with the department as messenger and worked his way up to the position of license clerk. He was 55 years old and leaves a widow and four children.

PASSENGER STEAMERS MAY CALL AT NORFOLK

Would Open Direct Service Between England and the South.

British Line With Ships Running Between Avonmouth, Jamaica and Panama May Make Virginia City Coaling Point.

Washington, July 13.—A line of steamers carrying passengers from England to Norfolk and taking passengers there for Jamaica and Panama is contemplated, according to American Consul J. S. Armstrong, Jr., at Bristol, England. In a report to the State Department Consul Strong said he had been informed by Elders & Fyffes, which company operates a fortnightly passenger and fruit trade between Avonmouth and Kingston, Colon and Port Limon, that it contemplates having its vessels call at Norfolk on the outward voyage and obtain coal, owing to the insufficient supplies of coal at Avonmouth, and it is possible the company will carry passengers to the Virginia port. Consul Strong says this would mean the opening up of a direct passenger service between England and a port in the Southern states and afford another means of passenger travel to Jamaica and Panama.

Three steamers are now operating on the line. They are the Cavina, Camito and Coronado, all of more than 6,500 tons gross.

NORTH CAROLINA JEWELERS HOLDING ANNUAL SESSION.

State Convention Convened Yesterday in Greensboro.

(Special Star Correspondence.)

Greensboro, N. C., July 13.—The 11th annual convention of the North Carolina Jewelers' Association was called to order in the assembly room of the Greensboro Chamber of Commerce this morning at 10:30 o'clock by President Frank M. Jolly, of Raleigh. About 50 members of the organization were in attendance and several new members were enrolled. The prayer was by Mr. R. C. Bernau, a well known member of this city. Mayor T. J. Murphy extended the welcome on behalf of the city, and the response was by Mr. Fred N. Day, of Winston-Salem. A meeting of the executive committee was held just prior to the opening of the convention.

DISLOYAL FOREIGNERS ARE AGAIN DENOUNCED

(Continued From Page One).

a willingness to represent ideal things rather than material things.

"It takes a great deal more steadfastness to represent ideal things than to represent anything else," he continued. "It is easy to lose your temper and hard to keep it. It is easy to strike and sometimes very difficult to refrain from striking."

The government particularly, the President said, should be so maintained that the immigrant could look at it "with closest scrutiny" and not find it wanting in any particular as the representative of a free people. He reiterated his belief that the number of foreign-born citizens who have been disloyal make up only a small part of the whole number of those who have adopted the United States as their country.

Three boats to Carolina Beach Sunday. Steamer Wilmington leaves 9:00, 2:30 and 7:30.
(advertisement.)

NIGHT RIDERS BEGIN OPERATING IN PENDER

Crops and Fencing of Stock Law Advocate Destroyed.

Two Townships on Wilmington-Fayetteville Highway to Vote on Bonds or Special Tax for Building Good Roads.

(Special Star Correspondence.)

Burgaw, N. C., July 13.—The night riders have begun to work in Pender county, as a party of them paid a visit to the farm of Mr. J. T. James, of Holly township, on Tuesday night of this week and cut up an acre of peanuts, several acres of corn and other crops and cut up a lot of his wire fencing, the total damage being estimated at $75.

Mr. James has been a stock law man ever since the law was passed and has incurred the ill will of some of the Free Rangers.

About the same time somebody visited the premises of Mr. T. B. Rochelle, another advocate of the stock law, and scattered his farming implements about in such a way that he had great difficulty in finding them.

The county commissioners at the last regular meeting called an election for Grady and Columbia townships, on the question of bond issue or special tax for constructing roads in those townships. As the proposed Wilmington-to-Fayetteville Highway will pass through these townships, it will be absolutely necessary for them to have money, either by bond issue or special tax, and as the people realize this it is quite likely one or the other will be voted.

ANNUAL MEETING OF CHAMBER OF COMMERCE

(Continued from Page Five.)

the live stock industry," the report continued, "and we hope most sincerely that the Chamber of Commerce committees working on the question of establishing a packing house in Wilmington will be successful. Nothing could do more to build the farming interests and the creation of wealth in the Wilmington territory than the operation of a successful packing house in this section.

"The work of Mr. J. P. Herring in directing the activities of the farmers of New Hanover county, especially in regard to the advantages of forage crops and the best methods of growing certain truck crops, has proven most valuable, and will increase in importance as the men who consult with Mr. Herring begin to realize what a fund of practical information is made available through his co-operative efforts."

The report of this committee calls attention to the fact that a representative of Hugh MacRae & Co., has given almost continuous service during the past year to introducing the individual canning processes among the farmers at Castle Haynes and other points in the nearby counties. The results have been that many families are now putting up an ample good supply from products which have heretofore been wasted. In a similar direction representatives of this firm have spent much time in arranging for the successful marketing of eggs and milk, direct from the farms to the consummers. The results have been very satisfactory and the indications for the future good. It has had a stimulative effect particularly upon the chicken industry.

Insurance Committee.

Mr. M. S. Willard, chairman of the Insurance committee, reported that during the past year his committee had had nothing referred to it. After stressing the importance of taking an active interest in the insurance legislatio that may be proposed and pointing out the bad results obtained in South Carolina the report continues as follows:

"At the last session of the General Assembly of North Carolina there was a determined effort made to enact some of the laws which were put in force in South Carolina, but better counsels prevailed. Some of the laws which were passed, however, while accomplishing no evident good, have been extremely annoying both to the insurance companies and certain business interests. It is to be expected that efforts will be made again to put in force laws which will cause very great inconvenience, and hardship if put on our statute books. The committee therefore hopes, when the time comes for the business men to interest themselves in matters concerning insurance, they will be ready to give this importanut matter such careful and earnest consideration that only such laws may be passed as will be just to the insurance companies and will also conserve the interests of those who have property which calls for the protection which can only be secured from the insurance companies of the country. The credit of a great number of business enterprises depends upon sound insurance and any legislation which disturbs one of those interests unduly will surely affect the other adversely."

Committee on Manufacturing.

Mr. M. W. Jacobi, chairman of the committee on manufacturing, stated that during the past year the Chamber has assitsed in locating several enterprises among them being a saw mill, a fertilizer factory and a fish canning plant and did what it could towards establishing a canning factory. The packing house proposition and the establishment of a creamery were also favorably considered during the year. The contracts recently awarded for schooners means much to the city, the report states. Attention is called to that fact that "the Tidewaer Power Company, we feel has led in the way of progress, and with the co-operation of our people will do much towards making this one of the garden spots of this country."

Co-operation, unity of purpose and a determination to upbuild Wilmington are pointed out as a fitting motto for the ensuing year. We realize that if our city and people are to prosper," the report states, "there must be unity of purpose and small personal feelings and jealousy must be laid aside, and we must join in the common work for the community at large."

Civic Committee Report.

One of the most active of the committees of the Chamber during the past year was the Civic committee, of which Mr. John J. Blair is chairman. Among the various enterprises in which the committee has interested itself were the following: the Greenfield park development, the Winter Park property, a survey of playground conditions, the securing of speakers and the writing of articles for the purpose of educating public opinion. One of the most important features taken up by the committee was the development of parks or playgrounds for recreation.

This committee has recommended that City Council take such steps as will be necessary to put in good condition the lot at the corner of Fourth and Princess streets, so that it can be used for a playground and also that the city authorities consider the matter of securing some property along the river front which can be used as a park. The committee has in mind particularly the area between Nun and Ann streets.

Another important project recommended is that of having a civic survey which would have for its special object, the planning of the future building of the city along sane and sensible lines.

In his report of the Cape Fear Bridge committee, Chairman W. D. MacMillan, Jr., told of the work that has been done during the past year and in conclusion stated that "your committee is of the opinion that these preliminary steps are of great importance, and that the proposition can now be said to have made a real advance towards a satisfactory culmination."

Other reports submitted included that of the Special Tax committee by Mr. H. C .McQueen, which was published at the time the investigation was made last year, the report of the legislative committee by Col. Walker Taylor; the report of the finance committee by Mr. C. Van Leuven, the report of the entertainment committee by Mr. E. T. Taylor; report of advertising committee by Mr. M. F. H. Gouverneur; report of the streets and wharves committee by Mr. W. B. Thorpe; the report of the Baltimore & Carolina Steamship committee by Mr. Charles A. Price; the report of packing house committee by Mr. W. W. Love; and the report of the naval stores committee by Mr. F. A. Thompson.

Mr. J. F. Roache, chairman of the membership committee, reported that since January 1 when the present committee was appointed 53 new members have been added to the Chamber of Commerce while for the preceding eight months there were 30 new members added, making a total of 83 for the year. During the past year, 26 members have been lost, making a net gain of 57 for the year. The Chamber has at present 243 members. The membership committee has been one of the most active of the Chamber and has done splendid work.

Secretary Howard B. Branch read the reports which had been prepared by the different committees. The Secretary did not make a report but he had a very active and important part in the various activities of the Chamber during the year. He has worked energetically and all the time for the upbuilding of the city. He has been the man on the job and at the job all the time. His efforts have had a very direct bearing upon the success of the Chamber in the business life of the city.

In Memoriam.

The following resolutions in memory of Mr. George W. Huggins were unanimously adopted by a rising vote of the Chamber:

"The committee appointed to prepare resolutions commemorate of the late George W. Huggins, a member of this Chamber, reports as follows:

"Died on the 12th day of June, 1916, at his residence in this city, George W. Huggins, in the seventy-sixth year of his age, therefore,

"Resolved, that by the death of Mr. Huggins this Chamber has lost a good and valuable member, one ready and willing at all times to serve where duty called him. That this State and city has lost a true and efficient citizen, one devoted to their interest, sober and industrious, brave and courageous in the discharge of his duties, exemplar in his conduct, steadfast and true in every walk of life, he possessed all the sterling qualities that go to make up the best type of manhood.

"Resolved, That, in token of the respect and regard in which Mr. Huggins was held by this association, these resolutions be entered on the record book thereof and a copy sent to the family of our deceased member, by the secretary, with the expression of the sincere sympathy of this Chamber in this sad bereavement.

"A. M. Hall, "Chairman,

"J. I. METTS,

N. C. EDITORS THRILLED BY WAR CORRESPONDENT

(Continued from Page One.)

teners something they were very anxious to hear.

Knew Not War's Cause.

Mr. Sheppard told of arriving in London shortly after war broke out, of the disorder that prevailed. He said that everyone knew there was a war and that England was due to become involved, but no one could guess why war had been declared. No one, according to the speaker, thought of the assassination of the Austrian Crown Prince in the Servian capital a few weeks before.

"When I arrived in London," said the speaker, "war was considered a great thing, a noble calling, which was in a big measure due to the ignorance of the masses. It was at this moment that I realized that I was about to witness war in the very heart of civilization," he continued.

From London Mr. Sheppard went to Antwerp and it was there that he heard his first rifle shot of the war. From Antwerp the correspondent continued to Paris, where everything was in confusion. The newspapers had closed down, records were removed and every one frightened. The speaker declared he was in Paris when the Germans were turned back at the Marne and Paris was saved.

Tribute to America.

From Paris, Sheppard started for Berlin via Munich and experienced no difficulty in getting into and across Swiss territory. In Munich the speaker declared that he met an officer who shook his hand and declared that he was glad to meet a man from the nation that is the conscience of the world. The speaker declared that those words kept springing into his mind: "America the conscience of the world."

Editor Britton Speaks.

In accepting the office of president of the association Editor Britton spoke briefly on the power of the press and its desire to do the right thing.

"Of course, we get recompense; people pay for advertising and for subscription but I don't believe there is a man engaged in editing a paper in this State but who is trying to do the community and the State some good. If there is an editor who is doing the work for ulterior motives he should get out of the journalistic field," concluded the new president.

The convention was called to order at 9:30 a. m. by President James H. Cowan in the East Duke building and numerous papers were read. Dr. Delia Dixon-Carrol, of Raleigh, presented Equal Suffrage to the assembly and was given good attention. About noon the delegates were carried to Lakewood Park where a Brunswick stew and barbecue was served. In the afternoon they visited various manufacturing enterprises in the city.

The association adopted resolutions favoring the establish ment of a paper manufacturing plant in the South, and a forestry warden for every county in North Carolina.

ALL-SOUTH CHRISTIAN ENDEAVOR CONVENTION

Nearly All Southern Societies Represented at Opening.

Indicative of the Growth of the Society it is Announced That 675 New Societies Have Been Organized in Ten Months.

Atlanta, July 13. — Representatives of most of the 2,257 Christian Endeavor societies in Southern states, having a total membership of 26,000, were in attendance at the opening session of the All-South Christian Endeavor Convention here tonight. Indicative of the rapid growth of the society in the South, it was announced that 675 new societies had been organized therein during the last ten months.

The convention is being held under the direction of the Southern Extension Committee of the World Christian Endeavor Union which, at its convention in Chicago last year, refused to allow the Southern societies to organize a separate branch. The Southern committee was named as a compromise. Further efforts to organize a Southern union may be made at the sessions here, but many delegates are opposed to it, fearing it would cause friction with the larger organization.

The officers of the convention for the ensuing year were elected as follows: Duncan E. Curry, Jacksonville, Fla., chairman; Rev. Claude Hill, Chattanooga, vice chairman; Rev. L. E. Brubaker, Ensley, Ala., secretary; W. Roy Breg, Dallas, treasurer; Karl H. Lehmann, Birmingham, Southern states secretary; Wyatt A. Taylor, Columbia; Charles E. Evans, Lexington, Ky., and A. A. Hyde, Sherman, Texas ,field secretaries.

The convention will continue in session here until Sunday.
